CHAPTER - I

PRELIMINARY

INTRODUCTORY

As a Presiding officer, you have an important role to play in the conduct of poll. You enjoy full power to control the proceedings in the polling station under your charge. It is your primary duty and responsibility to ensure a free and fair poll at your polling station. It is necessary for this purpose to equip yourself fully with the law and procedure and the relevant instructions and directions of the Commission in relation to the conduct of elections so as to enable you to act strictly in accordance with them and giving no room for any reasonable complaint.

Elections to the Wards in Municipal Corporations were hitherto held under the traditional system of ballot papers and ballot boxes. Whereas, now the electronic voting machines, are being used (hereinafter referred to as voting machine) produced by ECIL is a very versatile and reliable system for conduct of election. The voting machine has been designed keeping in view the present system under which ballot papers and ballot boxes are used.

You are the Presiding Officer for a polling station in which voting machines are going to be used. You should, therefore, acquaint yourself fully with the latest position about the rules and procedures prescribed for the conduct of poll by voting machines. You should not only familiarise yourself thoroughly with each step to be taken in the conduct of poll at the polling station, but also with the operation of voting machine. A slight mistake or lapse or wrong application of the law or rules or inadequate knowledge of various functions of the voting machine may vitiate the poll at your polling station.

BRIEF INTRODUCTION TO VOTING MACHINES

Voting machine consists of two Units, namely, Control Unit and Balloting Unit. These two units are interconnected, when the voting machine is put in operation, by means of a cable, one end of which is permanently attached to the balloting unit.

The balloting unit cater upto sixteen candidates. On the balloting unit, there is provision for display of the ballot paper containing the particulars of the election, serial numbers and names of contesting candidates and the symbols respectively allotted to them. Against the name of each candidate, there is a button by pressing which the voter can record his vote for him. Alongside the said button, there is also a lamp for each candidate, which will glow red when the vote is recorded for him by pressing the said button.

Four balloting units linked together catering upto sixty four candidates can be used with one control unit. On the top most portion of the control unit, there is provision for displaying the various information and data recorded in the machine, like the number of contesting candidates, total number of votes polled, votes polled by each candidate, etc. This portion is called, for easy reference, '**Display Section**' of the control unit. Below the display Section, there is a compartment for fixing the battery on which the machine runs. By the side of this compartment, there is another compartment in which there is a button for setting the machine for the number of candidates contesting the particular election. This button is called the '**Cand Set**' button and the whole section of the control unit consisting of these two compartments is called the '**Cand Set Section**'. Next to the '**Cand Set**' Section is the '**Result Section**' of the control unit. This section contains (i) '**Close**' button used for closing the poll, (ii) two '**Result**' buttons for ascertaining separately the result when poll is held to two seats and (iii) '**Clear**' button for clearing the data recorded in the machine when not required. In the bottom portion of the control unit, there are two buttons – one marked '**Ballot**' by pressing which the balloting unit becomes ready to record the vote and the other marked '**Total**' by pressing which the total number of votes recorded upto that stage (but without the candidate-wise break up) can be ascertained. This section is known as the '**Ballot Section**' of the control unit. The machine uses a modern microcomputer. It operates on a battery and can be used anywhere and under any conditions. It is tamperproof, error-free and easy to operate. Both the Units of the machine are supplied in two separate carrying cases which are

easily portable. The polling information once recorded in the machine is retained in its memory even when the battery is removed.

The machine, especially balloting unit, is so designed as to keep intact all essential features of the present voting system and the only change is that the voter is required to press the button provided opposite the name and symbol of the candidate of his choice as against the use of arrow cross mark rubber stamp which is put on the ballot paper on or near the symbol of his choice. All the safeguards taken under the present system against the tamperability of the ballot boxes and violation of secrecy of vote are fully maintained in the voting machine. The process of voting in the voting machine is very simple and quick and even illiterates have no difficulty in using the voting machine to record their votes. The polling personnel will also not find any difficulty in operating the machine as its mechanism and operations are quite simple. The pace of polling is far quicker and the time taken for the entire operation of voter exercising his franchise is comparatively much less. The counting of votes and declaration of results by using the voting machines will be an absolutely simple affair as there will be no doubts and disputes with regard to any vote, and the result of the poll taken at a polling station will be available on the mere pressing of the result button on the control unit.

LEGAL PROVISIONS REGARDING CONDUCT OF POLL

The provisions of the law which have a bearing on your duties as a Presiding Officer are reproduced in **Annexure I**.

BROAD OUTLINES OF DUTIES

This Handbook is designed to give you the information and guidance which you may need in the performance of your functions as a Presiding Officer. However, it may be noted that this Handbook cannot be treated as an exhaustive compendium in all aspects and as a substitute reference for various provisions of election law during the conduct of poll. You should, wherever necessary, refer to those legal provisions which are reproduced in **Annexure - I**.

While detailed directions and instruction are contained in the various Chapters of this Handbook, some of the salient and important aspects of your duties are given below for your guidance:

- (i) You should acquaint yourself fully with the latest position about the rules and procedures prescribed for the conduct of poll by voting machines.
- (ii) You should familiarise yourself thoroughly with the operation of the voting machine and the functions of various buttons and switches provided therein.
- (iii) You must acquaint yourself with members of your polling party and keep contact with them right from your appointment as Presiding Officer.
- (iv) You must keep in ready possession all relevant instructions of the Returning Officer.³
- (v) You must have a clear idea of the location of your polling station and your itinerary to and from the polling station.
- (vi) You should attend all rehearsals and training classes without fail.
- (vii) while collecting election materials, you should ensure that all items have been handed over to you. The most important items are electronic voting machine (ballot unit and control unit), tendered ballot papers, Register of Voters (Form XXXIV), marked copy of electoral roll and extra copies of the roll, green paper seals, strip seals, special tags, statutory forms, sealing wax and indelible ink.
- (viii) On arrival at the polling station, you should have a clear idea of the arrangements to be made for setting up of a proper polling station especially to secure secrecy of voting, regulation of queue of voters, protection of poll proceedings free from outside interference, etc.
- (ix) Before the commencement of poll, the voting machine has to be demonstrated to the polling agents present to satisfy them that no votes are already recorded therein. It has also to be demonstrated to them that the machine is in perfect working condition. For these purposes, a mock poll shall be held by recording a few votes at random for each of the contesting candidates and tallying the result.

- (x) After holding the mock poll, the votes recorded at such mock pool have to be cleared from the voting machine so that no data relating to the mock poll remains in the memory of the machine. The control unit of the voting machine has then to be sealed and secured by fixing the green paper seal (s) and special tag in the space provided therefor and the strip seal.
- (xi) The poll should commence at the hour fixed for such commencement by the Election Commission. Before commencing the poll, the candidates or their agents present and the polling officers should be warned about the maintenance of secrecy of vote and provisions of section 602 of Greater Hyderabad Municipal Corporation Act, 1955 (**Annexure - II**) should be brought to their notice.
- (xii) At the commencement of poll, you have to make a declaration in a prescribed form about the demonstration of the voting machine, marked copy of the electoral roll, and the Register of Voters to candidates or their polling agents present and get it signed by them.
- (xiii) The identity of elector should be properly verified by the First Polling Officer with reference to his entry in the electoral roll and the document (s) prescribed by the State Election Commission and the unofficial identity slip carried by an elector should not be accepted as a matter of routine.
- (xiv) After an elector is identified with reference to his entry in the electoral roll and the document (s) prescribed by the State Election Commission, the left forefinger should be marked with the indelible ink by the Second Polling Officer.
- (xv) In order to ensure that the indelible ink mark put on the voter's finger has properly dried up and developed into a distinct indelible ink mark, third polling officer should inspect the indelible ink mark before the voter leaves the polling booth.
- (xvi) After an elector has been identified, the entry relating to the elector in the marked copy of the electoral roll should be underlined. A tick mark (✓) will also be put in the case of a female elector.
- (xvii) The serial number (not the name) of the elector as given in the marked copy of the electoral roll should be noted in the Register of Voters (Form XXXIV).
- (xviii) The signature or thumb impression of the elector should be obtained on the Register of Voters (Form XXXIV) before he is allowed to record his vote. If an elector refuses to put his

signature or thumb impression on the Register of Voters, he shall not be permitted to vote and an entry 'Refused to vote' will be made in the 'Remarks' column of the Register of Voters. You and the voter will sign below such entry.

- (xix) After the signature or thumb impression of the elector has been obtained on the Register of Voters, his left forefinger has been marked with the indelible ink, he shall be issued a voter's Slip (in the prescribed form) showing the serial number at which the entry relating to him has been made in the Register of voters.
- (xx) The electors shall be allowed to record their votes in the voting machine on the basis of the Voter's slips in the strict order in which they have been entered in the Register of Voters.
- (xxi) If you consider an elector to be much below the minimum age of voting, i.e., 18 years, but are otherwise satisfied about his identity and the fact of inclusion of his name in the electoral roll, you should obtain a declaration from him about his age, vide - form of declaration in **Annexure X**.
- (xxii) You have to go on recording the relevant events as and when they occur in the Presiding Officer's Diary.
- (xxiii) You have to regulate the proceedings in the polling station for peaceful and smooth conduct of poll. You require much tact, but at the same time you should be firm and impartial.
- (xxiv) You shall close the poll at the hour fixed for the purpose by the Election Commission, even if the commencement of poll was delayed for any reason. However, all voters present at the polling station at the closing hour of poll shall be allowed to vote even if that means the continuing of poll for some more time. It should also be ensured that after the closing hour of poll nobody joins the queue of voters. For that purpose, you should distribute numbered slips to all voters standing in the queue at the time fixed for close of poll starting such distribution of slips from the end of the queue.
- (xxv) At the close of poll, you are required to prepare, in duplicate, an 'Account of Votes Recorded' in Part I of Form XXXI (**Annexure-XXI**) Authenticated copies of such account of votes recorded are required to be given to the polling agent of each candidate present. You are also required to make a declaration regarding furnishing of such copies to the candidates agents in the form prescribed by the Commission.
- (xxvi) After the close of poll, the voting machine and all election papers should be sealed and secured in the manner prescribed by the Election Commission. Candidates or their agents present have

also to be allowed to affix their seals, if they so desire, on the voting machine and the election papers in addition to your seals. You should follow carefully the relevant instructions about the sealing and securing of voting machines and election papers so that no mistake is committed.

(xxvii) It is your personal responsibility to hand over the voting machine and all election papers duly sealed and secured to the officer responsible for the collection thereof, under proper receipt.

5. Your duties in brief at various stages are given in **Annexure III** under five different heads for your ready reference and convenience.

CHECK MEMO

To ensure that you have fulfilled the various statutory requirements in connection with the election, the Election commission has drawn up a CHECK MEMO for you, which is given in **Annexure IV**. The said CHECK MEMO should be properly maintained by you.

CHAPTER - II

FORMATION OF POLLING PARTY AND REHEARSALS

POLLING PARTY

Now that the Poll is conducted with the use of EVMs (Electronic Voting Machines) for the office of Ward Member of Municipal Corporation, your party will consist of yourself and four polling officers. However, where the number of electors assigned to a polling station is 1200 or more, an additional polling officer may be appointed. (see **Annexure-XXIII**). While appointing the polling party, one of the Polling Officers in your party will be authorised to perform the duties of Presiding Officer in case you are to be unavoidably absent from the polling station.

CONTACT WITH THE OTHER MEMBERS OF THE POLLING PARTY

Ascertain as soon as it is practicable, who the other members of your polling party are going to be. It is necessary for you to have the residential addresses of all the Polling Officers appointed to work under you. You should go over with them as frequently as possible, and explain to them, the part to be taken at the poll by each member of the party. Unless there is team work, your task as Presiding Officer will be more difficult.

POLLING REHEARSALS

Attend as many polling rehearsals as you can. This is essential for fully acquainting yourself with the operation of voting machine and for obtaining a clear idea of the polling procedure to be followed at the polling station and understanding the provisions of the law. Ensure that at the polling rehearsals arranged by the Returning Officer you and your Polling Officers present are provided with a copy of the Handbook for Presiding Officers separately published by the State Election Commission explaining the detailed procedure to be followed at the polling stations, where voting machines are to be used.

You must take with you the Polling Officer authorised to perform your duties in your unavoidable absence to these rehearsals. It is very necessary that you and such authorised Polling Officer should do the various operations on the voting machine yourself/himself and should not be content with simply watching the demonstration. Both of you should also familiarise yourselves with the fixing of the green seals, special tag, strip seal and address tags, etc.

You should also prepare a sample Account of Votes Recorded and paper seal account in Form XXXVI.

Even if you had worked as Presiding Officer or Polling Officer in some earlier election, you must attend the training classes/rehearsals as you may not have handled the voting machine earlier. Further, the election law and procedure, are being amended from time to time and it is necessary that you should follow the revised procedure as otherwise the conduct of election may not be in accordance with the latest procedures or instructions. Furthermore, it is always advantageous to refresh your memory even if there is no change in the law and procedure.

APPLICATION FOR POSTAL BALLOT PAPER.

You and your Polling Officers may be electors in the same Ward of the Municipal Corporation in which you are posted on duty or in some other ward in Municipal Corporation. The order of appointment as Presiding Officer will be issued in duplicate and along with this order, the Returning Officer will send you sufficient number of Forms XXIII **Annexure-XIX** to enable you and the Polling Officers to apply for Postal Ballot Papers and Election Duty Certificates. If any one of you is an elector in the same ward you can apply for an Election Duty Certificate in Form-XXIV to the Returning Officer. In either case, you have to send the application form immediately along with the duplicate copy of the order of appointment as otherwise there may not be enough time to receive the Election Duty Certificate / Postal Ballot Paper.

It may be noted that once a postal ballot is issued to you, you can vote

only through postal ballot, even if you are not actually deployed for election duty for any reason.

It is advisable to apply for postal ballot paper immediately after coming to know about your appointment on election duty without waiting for information about the place of duty to apply.

A copy each of the electoral rolls for all the wards in the Municipal Corporation will be made available for inspection by the Commissioner of Municipal Corporation at the centre(s) for rehearsal and training classes, so that you can note down the particulars of electoral roll numbers which you have to furnish in your applications for Postal Ballot Paper or Election Duty Certificate, as the case may be. Spare copies of Forms-XXIII and XXIV will also be available at the said centre(s).

CHAPTER - III

COLLECTION OF VOTING MACHINE AND POLLING MATERIALS

POLLING MATERIALS

On the day previous to the day poll or on the day of departure for the polling station you will be supplied with all the election materials, a list of which is set out in **Annexure V**. Before leaving for your polling station, make sure that you have received all the items.

CHECKING OF VOTING MACHINE

Check, in particular, the following:

- (1) That the control unit and the balloting unit(s) of the voting machine given to you are the same which are meant for use at your polling station. This shall be checked with reference to the address tags attached to the said units as the number and name of the polling station shall be indicated by the Returning Officer on each of those address tags.

The address tag for control unit will contain the following particulars:

“Election to the Ward No..... Name of the Ward..... Name of the Municipal Corporation..... Control Unit No..... Sl. No. and Name of Polling Station..... Date of Poll.....
--

The address tag for balloting unit will contain the following particulars:

“Election to the Ward No Name of the Ward Name of the Municipal Corporation Balloting unit No..... Sl. No. and Name of Polling Station..... Date of Poll.....

- (2) That the 'Cand Set Section' of control unit is duly sealed and the address tag is firmly attached thereto.
- (3) That the battery installed in the 'Cand Set Section' of the control unit is fully operational. This may be checked by putting the Power Switch provided in the rear compartment to 'ON' position.
After the said checking, the power switch must be put to 'OFF' position.
- (4) That you have been supplied with the requisite number of balloting units and the ballot papers are duly fixed under the Ballot Paper Screen in each of them. The number of balloting units to be supplied to you will be dependent upon the number of contesting candidates in your constituency. If the number of contesting candidates is between 2 and 16, only one balloting unit will be supplied and the slide switch seen through the window at the right side top of the balloting unit will have been set by the Returning Officer at position '1'. If the number of contesting candidates is between 17 and 32, you will be supplied with two balloting units. On the first balloting unit in which the above mentioned slide switch will be set to position '1' the ballot paper will contain the names of the candidates at Sl. Nos., 1 to 16 in the list of contesting candidates. The second balloting unit will display the second sheet of the ballot paper containing the names of contesting candidates from 17 onwards (and upto 32) and the slide switch in that unit will be set to the position '2' Likewise, three balloting units will be supplied if the number of contesting candidates is between 33 to 48 and there will be four such units if the number of candidates exceeds 48 and is upto 64. In the third balloting unit the ballot paper will contain the names of candidates from Sl. Nos 33 onwards (upto 48) and its slide switch will be set to the position '3' The fourth balloting unit will display on the ballot paper fixed therein the

names of candidates from serial No. 49 onwards and its slide switch will show the position '4'.

- (5) That the ballot papers and slide switches on each of the balloting units have been correctly fixed/set as explained in the preceding item. It also must be ensured that the ballot papers as fixed on the balloting units are properly aligned and that the name and symbol of each candidate is in line with his corresponding lamp and button and the thick lines dividing the panels of the candidates on the ballot paper are in line with the corresponding grooves on the balloting unit.
- (6) That the candidates buttons which are visible on the balloting units are equal to the number of contesting candidates, and that the remaining buttons, if any, have been masked.
- (7) That each of the balloting units is duly sealed and secured at two places, i.e. at right top and right bottom portions, with the seals of the Returning Officer, and that the address tags are firmly attached thereto.

CHECKING OF POLLING MATERIALS

Check also-

- (1) that there is sufficient quantify of indelible ink in each of the two phials supplied to you and that the stamp Pads are not dry;
- (2) that all the three copies of the relevant part of the electoral roll are complete and identical in every respect and, in particular, that-
 - (a) the relevant part given to you pertains to the area for which the polling station has been set up and that it is complete in all respects alongwith the supplements, in every copy;
 - (b) all deletions of names and corrections of clerical or other errors as per the supplement have been duly incorporated in all the copies;
 - (c) all the pages in each working copy of the roll have been

serially numbered in manuscript from No.1 onwards.

- (d) the printed serial numbers of the voters are not corrected and no new numbers are substituted for them;
- (3) that the tendered ballot papers supplied to you are for the ward in which the polling station assigned to you is situated and that they are not defective in any respect. You should also check that their serial numbers tally with the details supplied to you.
- (4) If you find any voting machine or any polling material defective in any respect, you must immediately bring such defect to the notice of the officer in-charge of distribution of voting machines/polling materials or the Returning Officer for necessary remedial action.
- (5) Check also that photocopies of specimen signatures of the contesting candidates and their election agents are also given to you. This will help you in verifying genuineness of the signature of the candidate/his election agent in the appointment letter of polling agent(s) at the polling station.

CHAPTER - IV

SET UP OF POLLING STATIONS

ITINERARY

Have a clear idea of the routes and timings that you have to follow to reach your polling station. Details of the itinerary including the means of transport for yourself and the other members belonging to your party will be supplied to you in advance.

ARRIVAL AT THE POLLING STATION

You should be at the polling station with your party at least 75 minutes before the poll is due to commence.

ABSENCE OF POLLING OFFICER

If any Polling Officer appointed for your polling station is absent from the polling station, you have the power to appoint another on the spot in his place. Later, you have to inform the Returning Officer of such appointment formally. Do not, however, appoint any person who is an active supporter or worker of any of the candidates or an active opponent of any candidates.

DELEGATION OF DUTIES OF PRESIDING OFFICER

If you yourself have to be absent from the polling station on account of illness or other unavoidable reason, the Polling Officer previously authorised in this behalf by the Returning Officer will act in your place. He will exercise all the powers and duties of the Presiding Officer.

You may also delegate any of your functions in the polling station to any Polling Officer working with you at the polling station. Such delegation, however, does not relieve you of your own responsibility as you are in overall charge of the entire polling station in any case.

SET UP OF POLLING STATIONS FOR SINGLE ELECTION

On your arrival at the place where the polling station is to be set up, inspect the building proposed for the purpose and the polling station itself, if it has already been set up. Diagram of model polling station showing the layout when the polling party consist of 4 Polling Officers at an election, is set out in **Annexure VI**. It is open to you to make minor modifications in the actual set up of the polling station, if considered necessary; but make sure that -

- (a) there is enough space for the voters to wait outside the polling station;
- (b) there is separate waiting space for men and women as far as practicable;
- (c) there is separate entrance and exit for voters. (this purpose can be achieved by tying a rope to make separate entrance and exit through the same door);
- (d) there is easy flow of voters from the time they enter the polling station to the time they leave it and there is no criss-cross movement within the polling station;
- (e) the Polling Agents are seated in such a way that they can see the face of an elector as and when he enters the polling station and is identified by the first Polling Officer so that they can challenge the identity of the elector, if need be. They should also be able to see the entire operation at the Presiding Officer's table where the control unit is kept and also see the movement of the elector from the Presiding Officer's table to the voting compartment and his exit from the polling station after recording his vote. But they should not in any event be seated in a place where they have the chance of seeing voter actually recording his vote by pressing particular button;
- (f) the seating arrangement of all the Polling Officers is also such that they are not in a position to see the voter actually recording his vote by pressing particular button;
- (g) even if there is only one door to the room housing the polling station, separate entrance and exit can be provided with the help of bamboos and ropes in the middle of the doorway. Make sure that the inside of the voting compartment is sufficiently lighted. If necessary, arrange for a suitable light to be provided for each compartment.

VOTING COMPARTMENT

1. Voters have to vote in secrecy and for this purpose, the Balloting Units are required to be kept in Voting Compartments. Voting Compartment has to be covered three sides covered. The Balloting Unit is to be placed inside the Voting Compartment on a Table. The Balloting Unit is to be placed in such a way that voters do not find any difficulty to record their voters. The connecting Cable, which is permanently attached to the Balloting Unit, has to come out from the back portion of the Voting Compartment through an aperture cut out at the bottom of back portion of the Voting Compartment. This aperture should be wide enough so that that portion of the Balloting Unit through which the Cable comes out is visible from outside. This is necessary to keep a watch that no voter tries to tamper or damage the Cable while inside the Voting Compartment. However, this aperture in the Voting Compartment should not be too wide as to violate the secrecy of voting.
2. If sufficiently large number of pardanashin (burqa-clad) women electors are assigned to your polling station, you should make special arrangements for their identification and application of indelible ink on the left forefinger by a lady polling officer in a separate enclosure having due regard to privacy, dignity and decency. For such special enclosure you may use locally available but absolutely inexpensive devices and using local ingenuity, such as use of charpoys or cloth such as bed spreads.
3. If more polling stations more than one are located in the same building, you should satisfy yourself that necessary arrangements have been made for segregating the voters and making them wait in different parts of the space in front of each polling station without causing confusion.
4. If the polling station is located in a private building, the building and the area around it up to a radius of two hundred metres should be under

your control. No watch and ward or other personnel connected with the owner, whether armed or unarmed, should be allowed to remain either at the polling station or within a radius of two hundred metres around it. The security arrangements at the polling station and within the above area will be entirely the responsibility of the police under your control.

5. No photos of leaders of political parties or slogans having a bearing on elections should be exhibited and if they are already there, you should take steps to remove them till the poll is over.
6. No cooking or lighting of fire for any purpose should be allowed inside the polling station during the day of the poll.

DISPLAY OF NOTICE

Display prominently outside each polling station-

- (a) a notice specifying the polling area or the particulars of electors to be served by the polling station; and
- (b) a copy of the list of contesting candidates in Form XI and wherever practicable the facsimile of the symbol of each candidate.

The language of the notice should be the same as for the list of contesting candidates and the order of the names should also be the same.

VOTING PROCEDURE

The voters when they enter the polling station will proceed to the first polling officer. The First Polling Officer will identify the electors and make necessary entries in the marked copy of the electoral roll. He will maintain only one marked copy of electoral roll.

The voter will then move to Second Polling Officer who will first apply the indelible ink mark on his finger. The Second Polling Officer is also in-charge of Register of Voters. He will ask the Voter to sign or put thumb

impression in the Register of Voters. If the Voter puts his thumb impression, the polling officer should ask the voter to wipe off the residuary stamp pad ink from his thumb on a piece of wet cloth kept on the table for this purpose.

The Third Polling Officer will prepare a voters slip and after examining the finger of the voter to ensure the indelible ink mark is duly applied and not erased, will hand over the voters slips to the voter and direct him to the Fourth Polling Officer, who is incharge of the Control Unit.

ENTRY OF VOTER IN THE VOTING COMPARTMENT

It shall be ensured that the voter goes to the Fourth Polling Officer after taking the Voter Slip from the voter and ensuring that now it is his turn to vote, the Fourth Polling Officer shall activate the machine by pressing the Ballot Button on the Control Unit and direct the voter to go inside the Voting Compartment to vote. The Fourth Polling Officer will also inspect the indelible ink mark on the left forefinger of the voter to ensure that the same is intact before entry into the voting compartment and also at the time of exist after casting vote.

CHAPTER - V

ASSIGNMENT OF DUTIES TO POLLING OFFICERS

VOTING PROCEDURE IN POLLING STATION AND DUTIES OF POLLING OFFICERS

For efficient and smooth conduct of poll at your polling station, you should be thoroughly conversant with the procedure that is to be followed from the time an elector comes into the polling station and till he leaves it after casting his vote. Such voting procedure and the duties which each Polling Officer has to perform in this whole operation are explained in detail in subsequent chapters. However, a broad distribution of duties among the Polling Officers is indicated below.

DUTIES OF POLLING OFFICERS

First Polling Officer

The First Polling Officer will be in charge of the marked copy of electoral roll and responsible for identification of electors. On entering the Polling Station, the elector will proceed direct to the first Polling Officer, who will satisfy himself about the identity of the elector by following the instructions issued by the State Election Commission.

Second Polling Officer

The Second polling officer will be in charge of indelible ink. He will inspect the elector's left forefinger to see that it does not bear any sign or trace of indelible ink and then put a mark with the indelible ink above the root of the nail in such a way that the mark falls partly on the skin and partly on the nail and spreads on the ridge between the skin and the root of the nail and clear mark is left on the forefinger.

The Second Polling Officer will also be in-charge of the Register of Voters in Form XXXIV, (**Annexure XVI**). He will be responsible for maintaining in that Register the proper account of electors whose identity has been established and who vote at the Polling Station. He will obtain the signature or thumb impression of each elector on that Register

Third Polling Officer

He will issue a voter's slip to each elector in accordance with the procedure described in chapter XVI, and direct the Voter to the Fourth Polling Officer.

Fourth Polling Officer

The fourth Polling Officer will be in-charge of the Control Unit of the voting machine. He will be seated on the same table where the Presiding Officer sits so that the Presiding Officer can keep a close watch on the Control Unit and the Voting process. The fourth Polling Officer will allow the elector to proceed to the Voting Compartment only on the basis of the voter's slip issued by the Third polling officer and strictly in accordance with the Serial No. indicated in that slip. He will activate the balloting unit(s) kept in the Voting Compartment by pressing the appropriate (Ballot) button on the Control Unit as explained in detail in Chapter XVII. Before allowing the elector to proceed to the Voting compartment, he will also check and ensure that the elector's left forefinger bears a clear indelible ink mark.

Where the number of electors assigned to a Polling Station is small, the duties of the Fourth Polling Officer can be performed by the Presiding Officer himself, thus making a further economy in the formation of Polling Parties.

DUTIES OF PRESIDING OFFICER IN BRIEF

The Presiding Officer is over all in-charge of the polling station. His duties are, in brief, to –

- (i) Place the Ballot Units in their respective voting compartments. In no case the Ballot Unit or the Control Unit be placed on the floor. It must be kept on a table;
- (ii) Connect the Ballot Units with their respective control units;
- (iii) Switch on the power;
- (iv) Demonstrate before the hour fixed for actual commencement of the poll to the candidates/agents present that the voting machines are **clear** and do not contain any votes;

- (v) Conduct **mock poll** to ensure and demonstrate to the polling agents that the EVM is in perfect working condition;
- (vi) Clear the mock poll result;
- (vii) Prepare the Certificate of mock poll; Certificate of mock poll is given under Chapter-IX (Conduct of Mock Poll).
- (viii) Ensure that on the **green paper seal** fixed in the **CONTROL UNIT** the candidates or their polling agents, who are present at the polling station at that time, affix their signatures,
- (ix) See that voting compartments have been properly arranged with appropriate posters pasted outside to indicate clearly the election pertaining to which the Ballot Unit is kept inside;
- (x) Ensure that the cables to connect the Ballot Units with their respective control units are placed in such a way that the cable is visible to everyone while also ensuring that the voters are not required to cross over them during their movements inside the polling station and the entire length of the connecting cable is visible to all and not hidden. It should also be ensured that the cable does not hang loose under the voting compartment;
- (xi) Ensure that all the members of the polling party are in position well before the commencement of the poll and all materials and records are kept handy and ready to commence poll at the appointed hour;
- (xii) Prevent any member of the polling party or any polling agent from wandering here or there inside the polling station and to keep them seated in their allocated seats;
- (xiii) Commence the actual poll at the stroke of the hour fixed for commencement of poll;
- (xiv) Keep, during the progress of poll, a close watch on the movements of the voters and to be alert and watchful so that no voter goes away without voting;
- (xv) Ensure that during the first hour of the poll when polling is generally brisk, no member of the polling party shows any slackness in the duties allocated to him;
- (xvi) Check the total votes cast periodically on both the control units and also to ensure that voters have voted in according to their serial

numbers given on the voter's slip;

- (xvii) Ensure that copies of Form XXXVI (Account of Votes recorded) are supplied to polling agents of the candidates.
- (xviii) At regular intervals check the ballot unit to ensure that the voter has not tampered with it in any manner. The voter already in queue at the time fixed for close of poll will be allowed to vote.

CLOSING THE POLL

The Presiding Officer should ensure that the poll is duly closed at the end of the polling hour as per the direction of the Returning Officer as per the prescribed voting procedure. After the last voter has voted as per the above procedure, he should press CLOSE BUTTON of the Control Unit. After prescribed Forms have been carefully and duly filled for the election, he should disconnect the Balloting Unit from the Control Unit and seal them in its respective carrying cases.

The Presiding Officer should ensure that all the sealed Units and election records are duly handed over to the Returning Officer, at the reception center, as per the prescribed procedure.

CHAPTER - VI

REGULATION OF ENTRY INTO AND SEATING ARRANGEMENTS IN THE POLLING STATION

1. PERSONS ENTITLED TO ENTER THE POLLING STATIONS

1. In addition to the electors assigned to your polling station, the following persons can be admitted into the Polling Station:-
 - (a) Polling Officers;
 - (b) Each candidate, his election agent and one polling agent of each candidate at a time;
 - (c) Persons authorised by the Commission;
 - (d) Public servants on duty in connection with election;
 - (e) Observers appointed by the Commission;
 - (f) A child in arms accompanying an elector;
 - (g) A person accompanying a blind or an infirm voter who cannot move without help; and
 - (h) Such other persons as you may from time to time admit for the purpose of identifying voters or otherwise assisting you in taking the poll.
2. You should note that the term “Public servant on duty in connection with election” does not normally include police officers. Such officers, whether in uniform or in plain clothes, should not, as a general rule, be allowed to enter inside the polling booth, unless you decide to call them in for the maintenance of law and order or some similar purpose. Their presence in the polling booth without any compelling reason has on occasion given rise to complaints by some candidates or parties who have alleged that their agents had been overawed by unnecessary show of force.
3. Similarly, security personnel accompanying, if any, an elector or candidate or his election agent or polling agent should also not be allowed to enter the polling station.

4. You should also note that the above expression, “Public servant on duty in connection with election”. does not include the Ministers, State Ministers and Deputy Ministers of the Union and the States. They cannot be allowed to be appointed even as election agents, as they have to be escorted by security guards who cannot be allowed entry into the polling station.
5. Entry of persons should be strictly regulated as detailed above, otherwise, the smooth and orderly conduct of poll may be vitiated. You should allow only three or four electors to enter the polling station at a time.
6. If you have a reasonable doubt about the presence of any person about whose credentials you have a reasonable suspicion in the polling booth, you can have him searched, if necessary, even though the person concerned may be in possession of a valid authority letter to enter the polling booth.
7. In the performance of your duties, you are only bound by the instructions of the State Election Commission. You are not to take orders from or show any favour to your official superiors or political leaders including Ministers. Even in the matter of requests for entry into the polling booth from these, you should allow them only if they are in possession of a valid authority letter issued by the State Election Commission.
8. A village officer or other officer or a woman attendant employed by you for helping you in the identification of electors or to assist you otherwise in taking the poll should normally be seated outside the entrance to the polling station. He/she should be admitted into the polling station only when he/she is required for identification of a particular voter or for assisting you for a particular purpose in connection with the taking of the poll. No one inside the polling station should be allowed to influence or try to influence the voters by words or gestures to vote in a particular way.

ATTENDANCE OF POLLING AGENTS

The polling agents of the candidates should be asked to reach the polling station at least one hour before commencement of poll in order to be present when you are going through the preliminaries. If any part of these preliminaries has already been gone through, the proceedings need not be commenced de novo to accommodate any late-comer.

PRODUCTION OF APPOINTMENT LETTERS BY POLLING AGENTS

Every polling agent must produce before you the appointment letter in Form XIV prescribed in election rules (**Annexure – XV**) by which the candidate or his election agent has appointed him. Check that the appointment is for your polling station. The polling agent should then complete the document and sign the declaration therein in your presence and then deliver it to you before he can be admitted into the polling station. Preserve all such appointment letters and at the end of the poll send them in a cover to the Returning Officer along with other documents.

In case of any doubt about the genuineness of appointment letter in the said Form XIV (**Annexure – XV**) of any polling agent presented before you, you should compare the specimen signature of the candidate/his election agent with their specimen signatures as provided by the Returning Officer.

PASSES FOR POLLING AGENTS

Each candidate can appoint one polling agent and two relief polling agents at each polling station. However, only one polling agent of a candidate should be allowed inside the polling station at any given time. Give every polling agent, who is admitted into the polling station, a permit or pass on the authority of which he can come in and go out of the polling station as may be necessary. However, it should be ensured that the polling agents do not take the copy of the electoral roll outside the polling station.

SEATING OF POLLING AGENTS

The polling agents have to be seated behind the Polling Officer in-charge of marked copy of the electoral roll. Wherever this is not practicable because of the situation of the door for entrance, they may be given seat just opposite the polling officers. In any seating arrangement, they should be provided opportunity of seeing the faces of the electors and challenging their identity whenever necessary. They should not be allowed to move about in the polling station.

The seating arrangement at the polling station for the polling agents of candidates shall be guided by the following categories of priorities, namely:-

- (i) Candidates of recognised National Parties;
- (ii) Candidates of recognised State Parties;
- (iii) Candidates of Registered Parties; and
- (iv) Independent Candidates

SMOKING TO BE PROHIBITED INSIDE POLLING STATION

You should not allow smoking inside the polling station. If any of the polling agents desires to smoke, he may go out of the polling station without causing any dislocation to the polling.

MOBILE PHONES PROBIHITED: The Polling Agents are not permitted to use mobile phones inside the polling booth.

FACILITIES TO PRESS REPRESENTATIVES AND PHOTOGRAPHERS

Subject to the maintenance of peace and order there is no objection to any photographer taking photographs of a crowd of voters lining up outside the polling station. He should, however, in no circumstances be allowed to take photographs inside the polling station.

Neither the District Election Authority/ Election Authority nor the Returning Officer is empowered to authorise any person who is not an elector or who is not required to assist you in taking the poll, to enter a polling station. Any such person including publicity officials of the State Government should not be allowed inside a Polling Station without a letter of authority from the Commission. In no circumstances will any photograph be allowed to be taken while a voter exercising his vote.

FACILITIES TO OBSERVERS APPOINTED BY COMMISSION

The Commission appoints its observers at elections under Section 617D of the Greater Hyderabad Municipal Corporation Act, 1955

During the day of poll, some Observers might visit your polling station. It is quite possible that he may start his round of the Ward with the visit to your polling station and may be present there when you are going through the preliminaries before the commencement of poll. You should show him due courtesy and regard when he visits your polling station and should furnish him with such information as he may require from you for the purpose of his report to the Commission. He will only observe the poll being taken at your polling station, but will not give you any direction. If, however, he makes any suggestion with a view to providing more convenience to electors or making the poll process at your polling station smoother, you should give due consideration to such suggestion. In case, you are facing any particular problem or feeling any difficulty at your polling station, you may bring it to his notice, as he might be of help to you in solving that problem or removing that difficulty by bringing the matter to the notice of the Returning Officer or other concerned authorities for necessary remedial action.

The Observers will be carrying appointment letters and authority letters issued by the Commission.

WEARING OF BADGES, ETC., INSIDE POLLING STATION

No person should be allowed within the polling station or within 100 metres thereof to wear badges, emblems, etc., bearing the names of candidates or political leaders and/or their symbols or pictorial representation thereof.

The polling agents may, however, display on their person a badge showing the name of the candidate whose agents they are.

CHAPTER - VII

PREPARATION OF VOTING MACHINE BEFORE COMMENCEMENT OF POLL

PRELIMINARIES BEFORE POLL

Before a voting machine is put in actual use at the polling station, some preparations, in addition to the preparations made at the Returning officer's level, are necessary at the polling station. These preparations have to be done by the Presiding Officer in the presence of the candidates/ their agents before the commencement of poll.

You should start these preliminary preparations about one hour before the time fixed for the commencement of poll. If any polling agent is not present, the preparations should not be postponed so as to await the arrival of the polling agent. Nor should you start the preparations again if any polling agent turns up late.

PREPARATIONS ON THE BALLOTING UNIT

The balloting unit is already duly prepared in all respects at the Returning Officer's level and no further preparation of this unit is required at the polling station on the day of poll, except that its interconnecting cable has to be plugged into the control unit.

At the time of taking delivery of the voting machine alongwith other polling materials before proceeding to the polling station, you must have already carried out the checks mentioned in para 2 of chapter III. As instructed therein, you must have checked that you have been provided with the requisite number of balloting units, the ballot paper on each such unit has been properly fixed and properly aligned under the ballot paper screen, the slide switch on each unit has been set to the appropriate position and each unit is duly sealed and carries the address tag both at the right top portion and the right bottom portion.

INTERLINKING OF BALLOTING UNITS AND CONTROL UNIT

1. Where the number of contesting candidates exceeds 16, balloting units more than one, depending upon the actual number of contesting candidates, are to be used. All such balloting units to be used at a polling station are to be inter-linked and the first balloting unit will alone be linked with the control unit.
2. The balloting units shall be so inter-linked that the second balloting unit, i.e., the balloting unit in which the slide switch is set at position 2, is linked with the first balloting unit in which the slide switch is set at position 1. Where three balloting units are to be used, the third balloting unit will be linked with the second balloting unit and the second with the first, and where all the four balloting units are to be used, the fourth unit will be linked with the third unit, the third with the second and so on.
3. For linking a balloting unit with another, there is a socket provided in a compartment at the bottom portion of the balloting unit. The connector of the interconnecting cable of the second balloting unit will be plugged into the above mentioned socket of the first balloting unit. Likewise, the connector of the third balloting unit's interconnecting cable will be plugged into the second unit and that of the fourth unit into the third unit.
4. As mentioned above, the first balloting unit alone will be plugged into the control unit. The socket of plugging the interconnecting cable of the balloting unit into the control unit is provided in the rear compartment of the control unit.
5. The rear compartment in the control unit also contains the 'Power' switch and this switch when put to 'ON' position makes the battery of the voting machine operational and supplies the power both to the control unit as well to all the balloting units when linked to the control unit in the manner described above.

- Note: (i) When more than one balloting units are used, the same should be interlinked in the proper sequential order as explained in paragraph 3.2 above. Any wrong linking of the balloting units will render the machine non-functional and on pressing any button on the control unit the letters 'LE' indicating 'linking error' will appear on the display panel of the control unit. The linking error should be set right by interlinking the balloting units in the proper sequential order.
- (ii) The connector of the interconnecting cable, one end of which is attached to the balloting unit, is a multi-pin connector. The connector goes into the socket of the other balloting unit or of the control unit only one way, which can be found out easily by looking at the orientation of the pins and the word 'Top' written or inscribed on the hood of the connector. The pins of the connector are quite delicate and the connector should not be forced in the socket in such way as may damage or bend the pins. The machine will work only when the connection is made properly.
- (iii) The connector of the interconnecting cable can be disconnected from the control unit or from the other balloting unit only by releasing the spring type clips on both sides of the connector hood. These spring type clips will be released when pressed inward simultaneously and the connector should then be pulled out while keeping the spring type clips so pressed.
- (iv) Connecting the balloting units and the control unit or disconnecting them properly requires some practice so as to avoid any damage to the machine. This aspect should be clearly borne in mind and you yourself should connect the balloting units and the control unit.

CHAPTER - VIII

PREPARATION OF CONTROL UNIT

CHECKING OF CONTROL UNIT

At the time of taking delivery of the control unit at the distribution centre before proceeding to the polling station, you must have carried out the checks on the control unit as mentioned in para 2 of Chapter III.

You must have already checked that 'Cand Set Section' of the control unit is duly sealed and the address tag is firmly attached there to and that the battery installed in that section is fully operational.

PREPARATION OF CONTROL UNIT

Before a control unit is put in use at the polling station, some further preparations, apart from the preparations made therein at the Returning Officer's level for the installation of the battery and setting the number of contesting candidates, are necessary at the polling station.

The preparations to be made on the control unit by the Presiding Officer are as follows:-

- (i) Interlinking the control unit with the balloting unit or the first balloting unit where more balloting units than one are used;
- (ii) switching the power switch to 'ON' position;
- (iii) closing the rear compartment after performing the functions at (i) and (ii) above;
- (iv) conducting the mock poll (as explained in Chapter IX);
- (v) clearing the machine after the mock poll and setting all counts to ZERO (as explained in Chapter IX);
- (vi) Switching the Power switch to 'OFF' position;
- (vii) fixing the Green paper seal (s) to secure the inner compartment of the Result Section (as explained in Chapter X);
- (viii) closing and sealing the inner door of the Result Compartment by fixing the special tag (as explained in Chapter XI) and
- (ix) closing and sealing the outer cover of the Result Section with Address Tag and Strip Seal (as explained in Chapter XI)

CONNECTING THE CONTROL UNIT AND BALLOTING UNIT

You should plug the interconnecting cable of the balloting unit or the first balloting unit where more balloting units than one are used, into the socket provided of the purpose in the rear compartment of the control unit. While interlinking the control unit with the balloting unit, you must take necessary precautions as mentioned in para 3 of chapter VII.

SWITCHING 'ON' THE POWER

The voting machine runs on a battery, which has been installed in the 'Cand Set Section' of the control unit at the Returning Officer's level. For activating the battery which will supply power both to the control unit and balloting unit(s) when the same are interlinked, there is a power switch provided in the rear compartment of the control unit. After the control unit and the balloting unit(s) have been interlinked, you should put the power switch to 'ON' position. Thereupon, there will be a beep sound emitting from the control unit and the 'ON' lamp on the Display Section of the control unit will start glowing Green.

CLOSING THE REAR COMPARTMENT

You should then close the rear compartment. To keep it firmly closed, a piece of thin wire or a thick thread may be run through the two holes provided for the purpose and the ends of the wire may be given a few twists or a knot, as the case may be. You should note that the rear compartment is not to be sealed as it will require to be opened again after the close of poll for switching 'OFF' the power and disconnecting the balloting unit.

CHAPTER - IX

CONDUCTING MOCK POLL

DEMONSTRATION OF 'CLEAR' VOTING MACHINE

Before commencing the poll, you have to satisfy not only yourself but also all polling agents present that the voting machine is in perfect working order and that no votes have already been recorded in the machine.

For such satisfaction, you should first show to all present that all counts have been set to ZERO by pressing the 'Clear' button. The 'Clear' button is provided in a compartment in the Result Section of the control unit. This compartment is covered by an inner door and an outer cover. The inner door covers the compartments containing 'Clear' button, 'Result I' button and 'Result II' button, and the outer cover is provided above the inner door and covers also the compartment containing the 'Close' button. For reaching the 'Clear' button, you should first open the outer cover by pressing slightly inwards the latch provided on the left side. Thereafter, the inner door can be opened by inserting the thumb and a finger through the two apertures above the 'Result I' and 'Result II' buttons and then pressing the latches inside simultaneously slightly inwards. In no case, this inner door should be forced open without releasing the latches in the manner described above as otherwise this most vital compartment will get damaged.

When the 'Clear' button is pressed, the Display Panels on the control unit will start displaying the information available in the machine in the sequential manner.

Note: If on pressing 'Clear' button, the Display Panels do not display the information it means that some of the earlier operations needed for clearing the machine have not been performed. To clear the machine, ensure that balloting units and control unit have been properly linked. Press 'Close' button and thereafter press 'Result I' button. Now press the 'Clear' Button the Display Panels will start displaying the information.

The display of the information on the Display Panels shall satisfy the polling agents present at the polling station that no votes are already recorded in the machine.

MOCK POLL

1. After demonstrating as above that no votes are already recorded in the machine, you should hold the mock poll by recording some votes for each of the candidate at random.
2. For that purpose, perform the following operations:-
 - (a) Press the 'Ballot' button on the Ballot Section of the control unit. On pressing the 'Ballot' button, 'Busy' lamp in the Display Section will glow Red. Simultaneously, the 'Ready' lamp on the balloting unit will also start glowing green.
 - (b) Ask any polling agent to press, according to his choice, any of the candidate's button on the balloting unit. Ensure that each of the blue (unmasked) buttons is pressed at least once, so that each button left unmasked is tested and found functioning properly.
 - (c) On the candidate's button being so pressed, the 'Ready' lamp on the balloting unit will go off and the candidate's lamp near the button will start glowing Red. Also, a beep sound will be heard emitting out from the control unit. After a few seconds, the Red light in the candidate's lamp, Red light in the 'Busy' lamp and the beep sound will go off. This will be the indication that the vote for the candidate, whose button has been pressed, has been recorded in the control unit and the machine is now ready to receive the next vote.
 - (d) Repeat the process explained in the preceding paras (a), (b) and (c) for recording one or more votes for each of the remaining candidates. Keep a careful account of the votes so recorded in respect of each candidate.
 - (e) When the votes are being so recorded, press the 'Total' button

on the Ballot Section of the control unit to verify at any time that the total votes recorded in the machine tally with the number of votes which have been polled upto that stage.

Note: 'Total' button should be pressed only after the vote has been recorded for any candidate and the 'Busy' lamp in the Display Section is off.

- (f) At the end of the mock poll, press the 'Close' button in the Result Section. On the 'Close' button being so pressed, the Display Panels in the Display Section will show the following information available in the machine sequentially.

Np	1	NP - No. of posts
Cd	4	Cd - No. of candidates
TO	24	TO - Total No. of votes polled during mock poll
END		

Note: Subject to availability of time, there is no objection to permit the recording of more votes at mock poll. It is not necessary that the number of votes recorded for each candidate should be the same.

- (g) Now press the button marked 'Result I' 'in the Result Section' on that button being pressed, the Display Panels will start showing the information available in a sequential manner.

Cd	4
TO	24
01	4
02	10
03	9
04	1
END	

- (h) Next, press the 'Clear' button to clear the account of votes recorded during the mock voting. On the 'Clear' button being so

pressed, all counts will show ZERO.

- (i) Immediately after conducting the mock poll, the Presiding Officer shall sign a mock poll certificate prepared in the following format: -

MOCK POLL CERTIFICATE

This is certified that I.....Presiding Officer at the Polling Station No.....ofward of.....Municipal Corporation conducted the mock poll at ----AM today, the poll day i.e.....following the instructions issued by the State Election Commission.

CHAPTER - X

FIXING OF GREEN PAPER SEAL IN THE CONTROL UNIT

FIXING GREEN PAPER SEAL

In the conventional system of voting where ballot papers and ballot boxes are used, the ballot boxes are sealed and secured by fixing a green paper seal specially got printed by the Commission. Once the green paper seal is fixed in a ballot box and the lid of the box is closed, the box cannot be opened and the ballot papers contained therein cannot be tampered with or taken out for counting unless the green paper seal is torn. Similar safeguard has been provided in the voting machine so that once the control unit is sealed and poll commences, nobody should be able to tamper with the voting machine. To achieve and ensure this, provision has been made for fixing the same green paper seal as is used for securing a ballot box in the control unit of the voting machine.

There is a frame provided for fixing the paper seal on the inner side of the door of the inner compartment of the Result Section of the control unit.

The seal should be so fixed that its green surface is seen through the aperture from out side.

It should be ensured that no damaged paper seal is used in any case and if any paper seal gets damaged in the process of fixing, it should be replaced then and there before the door of the inner compartment is closed.

SIGNATURES OF PRESIDING OFFICER AND POLLING AGENTS ON PAPER SEAL

After fixing the paper seal, the door of the inner compartment should be closed by being pressed fit. It should be closed in such a manner that the two open ends of the paper seal project outwards from the sides of the inner compartment. Before the green paper seal is fixed in the frame provided for the purpose, the Presiding Officer should affix his signature in full immediately below the serial number of the paper seal on the white surface of the paper

seal. It shall be got signed by such of the candidates or their polling agents as are present and are desirous of affixing their signatures. The Presiding Officer should verify that the signatures of the polling agents on the paper seal tally with their signatures on their letters of appointment.

ACCOUNT OF PAPER SEALS

The Presiding Officer should keep a correct account of the paper seals supplied to him for use at the polling station and the paper seals actually used by him for sealing and securing the control unit. Such account shall be maintained by him in the form specifically prescribed for the purpose vide Item 9 of Part I of Form XXXVI (**Annexure – XXI**) appended to the Conduct of Elections Rules, 2005.

The Presiding Officer should allow the candidates or their polling agents present to note down the serial number of paper seals so supplied for use and actually used.

CHAPTER - XI

CLOSING AND SEALING OF CONTROL UNIT

SPECIAL TAG

The sizes of Special Tag to be used in the Electronic Voting Machines will be 7 cms x 5.5 cms.

Its thickness is equal to the thickness of a postcard. There is a hole on the right corner on top of front side with a metal ring to pass thread for sealing. Further, on the right hand side below the hole there is a groove cut on the special tag to just enough to fit with the door-knob of Result compartment. There is also an opening in the middle of the special tag, so that when the tag is fixed in the 'CLOSE' button compartment of the Result Section, the 'CLOSE' button is visible so that button can be reached to operate without disturbing the tag.

After the green paper seal has been signed by you and Polling Agents and fixed and secured, the door of the inner compartment over the 'Clear' button and 'Result'. buttons should be pressed fit and closed in such a manner that the two open ends of the paper seal continue projecting outwards from the sides of the inner door. Then this inner door should be sealed with a Special Tag. For this, you should pass the high quality twine thread specially supplied for this purpose by the Returning Officer through the two holes provided in the inner door and through the hole provided in the Special Tag.

CONTROL UNIT NUMBER

Before the Special Tag is used, you shall write the serial number of the Control Unit on the Special Tag.

SIGNATURE

After writing the serial number of the Control Unit on the Special Tag, you shall put your signature on the BACK SIDE of the Special Tag. You should also ask the candidates/polling agents present in the polling station before the commencement of the poll to put their signatures on the back, if

they so desire. You should also read out the pre-printed serial number on the Special Tag and ask the candidates/polling agents present to note down that serial number. If, by any chance, the Special Tag is spoiled or torn, you should use another one. For this purpose, like Green Paper Seals, the Returning Officer supplies you with 3 or 4 “Special Tags”

After doing all this tie the thread into a knot and seal the thread on the Special Tag with sealing wax. Thereafter without breaking the seal, you should adjust the Special Tag in the compartment of ‘CLOSE’ button ensuring that the ‘CLOSE’ button protrudes through the hole cut in the middle of the special Tag.

CLOSING AND SEALING OF OUTER COVER OF RESULT SECTION

After the inner compartment of Result Section of the control unit has been closed and sealed, the outer cover of the Result Section should be pressed fit for closing that Section. Before pressing that outer cover, it should be ensured that the two open ends of the paper seal project outwards from the either sides of the outer cover.

After the outer cover of Result Section has been closed, that cover should be sealed by (i) passing a thread through the two holes provided for the purpose on the left side of the outer cover, (ii) tying thread into a knot (iii) attaching a label (address tag) similar to the one which is attached to the ‘Cand Set’ Section at the Returning Officer’s level and sealing the thread on the Address Tag with wax and the seal of the Presiding Officer.

The address tag will contain the following particulars:

“Election to the Ward No. Name of the Ward from Municipal Corporation Control unit No..... Sl. No. and Name of Polling Station..... Date of Poll.....
--

The Returning Officer will provide sufficient number of blank printed address tags as part of polling materials. Particulars in the address tag should be carefully filled by you. The serial number of each control unit is inscribed on its bottom portion.

The candidates or their Polling Agents present should also be permitted to affix their seals, if they so desire, on the Address Tag along with your seal.

By so closing and sealing the inner compartment and the outer cover, the whole Result Section gets sealed and secured and the votes which will be recorded by the Control Unit cannot be tampered with.

STRIP SEAL

To further improve the sealing arrangements for Electronic Voting Machines, the Election Commission has introduced an additional outer seal for sealing the 'Result Section' of the Control Unit completely with an Outer Paper Strip Seal (hereafter referred to as "Strip Seal") so that this portion of the Control Unit cannot be opened once the polling has started and till the counting is taken up. This will ensure that from the time the first vote is cast in the machine at the polling station and till it is brought to the counting table, no person could have opened the Result Section without damaging the Strip Seal.

Accordingly at every polling station where the election is held with the use of EVM, the Control Unit shall be secured and sealed from outside completely with the Strip Seal so that this section cannot be opened without damaging the Strip Seal. The Strip Seal shall be positioned on the outer door of 'Result Section' just below the rubber cap covering the 'CLOSE' button in such a way that the covering the 'CLOSE' button is not covered by the Strip Seal.

STRIP SEAL - PHYSICAL FEATURES:

- (i) Strip Seal is a paper seal with a measurement of 23.5" (twenty-three point five inches) in length and 1" (one inch) in width. The

length of the strip is such that it can easily be draped round the breadth of the Control Unit to provide an extra outer seal of the Control Unit before the commencement of the poll and after the other standard seals have been affixed in the Control Unit.

- (ii) Each Strip Seal has a Unique Identity Number.
- (iii) These Strip Seals will be supplied by a firm duly approved by the Election Authority and the Election Authority will centrally procure them for all Municipal Corporations and arrange to supply the same to all Commissioners of Corporations through District Election Authority.
- (iv) At both the ends of the Strip Seal, there are FOUR (4) pre-gummed portions. Of these three are about one square inch area (identified by letter 'A', 'B' & 'C') and one is about two square inch area (identified by letter 'D'). Each gummed portion is covered by a strip of wax paper.
- (v) The Strip Seal has an inner side and an outer side. On the inner side of the strip, at one end there are two adjacent pre-gummed portions marked by letter 'A' & 'B'. At the other end of the inner side of the strip, there is about 2" (two inches) pre-gummed portion marked 'D'. On the outer side of the strip, there is only one pre-gummed portion marked 'C'. The dark portions are the gummed portions on inner side and outer side of the strip.

IMPORTANT CHANGE INFIXING THE GREEN PAPER SEAL

Now, there is an important change in the method of folding the Green Paper Seals. After fixing the Green Paper Seals in the slot provided in the windows of the Inner Door covering the Result Buttons, the inner door as well as outer door above the Result Section shall be closed. While doing so, the loose ends of the Green Paper Seals should be allowed to protrude outside from both the sides of the outer door above the Result Section.

COMPLETE METHOD OF SEALING CONTROL UNIT INCLUDING USE OF STRIP SEAL

For the sake of easy understanding, the complete sequential order of the steps to be taken by the Presiding Officer at the polling station until and including fixing the Strip Seal are given below:

- (i) Before the commencement of the actual poll, the Presiding Officer conducts mock poll.
- (ii) After conducting mock poll and showing the result, the Presiding Officer shall clear the Control Unit of the data relating to mock poll by operating 'Clear' button.
- (iii) After clearing he shall insert the Green Paper Seal to cover the windows of the inner door of the Result Section. While inserting the Green Paper Seals, care should be taken to ensure that the Green portion of the seal is visible through the windows of the inner door after it is closed.
- (iv) After inserting the Green Paper Seals, the inner door above the result buttons shall be closed.
- (v) Then the inner door of the result section shall be sealed off with the special tag.
- (vi) After fixing the Special Tag, close the outer door of the Result Section ensuring that the loose ends of the Green Paper Seal(s) protrude out from both the sides of the closed outer door
- (vii) Then the Presiding Officer shall seal the outer door with thread and address tag.
- (viii) Next he shall proceed to fix the Strip Seal around the Control Unit to seal the Result Section from outside completely so that this section cannot be opened without damaging the Strip Seal after the poll commences.
- (ix) Before the Strip Seal is fixed to seal the Result Section from outside the Presiding Officer should affix his signature in full immediately below the serial number of the paper seal. It shall be got signed by such of the candidates or their polling agents as are present and are desirous of affixing their signatures. The Presiding Officer should verify that the signatures of the polling agents on the Strip Seal tally with their signatures on their letters of appointment.
- (x) The Strip Seal shall, then, be positioned just below the 'CLOSE' button. The detailed procedure to fix the Strip Seals is given below.

METHOD OF SEALING MACHINES WITH STRIP SEAL

In ECIL machine only one Green Paper Seal is used. Therefore, the loose ends of the same Green Paper Seal protrudes from either ends of the outer door over Result Section. Following are the steps to seal ECIL MAKE MACHINES with Strip Seal:-

Step 1: First double fold the inner end of the a Green Paper Seal in the middle ensuring that the green portion of the seal remain outside

Step 2: Keep the Strip Seal with the pre-gummed portion 'A' positioned near the base of the inner fold of the Green Paper Seal protruding from the inner side of the outer door of the Result Section. Remove the wax paper over 'A' and press the inner fold of the Green Paper Seal over this gummed portion and paste.

Step 3: Remove the wax paper over the pre-gummed portion 'B' and press this gummed portion over the outer fold of the Green Paper Seal.

Step 4: After pasting 'B' over the Green Paper Seal the pre-gummed portion 'C' will come to the top position. Remove the wax paper over 'C', press the Green Paper Seal protruding from the top portion of outer door so that the Green Paper Seal is firmly pasted over 'C'.

Step 5: Take the remaining portion of the Strip Seal round the Control Unit from left side taking care that the strip passes below the 'CLOSE' Button. Bring the other end of the Strip Seal from right side of the Control Unit on top of the outer door where the pre-gummed portions 'A', 'B' and 'C' have been pasted.

Step 6 : Remove the wax paper covering the pre-gummed portion 'D' and press it firmly over the Green Paper Seal protruding from the top portion of the door. The pre-gummed portion 'D' spills over the Strip Seal below the 'CLOSE' Button. Press this spilled over portion of 'D' firmly over the Strip Seal. By the above process, both the loose ends of the Green Paper Seal protruding from both the sides of the outer door

get firmly pasted and held by the Strip Seal. At the same time the outer door over the Result Section is also sealed with this Strip Seal from all sides and this section cannot be opened without damaging this seal.

AFTER FIXING THE STRIP SEAL

After sealing the Control Unit with the Strip Seal, the Presiding Officer shall take care that the seal is not damaged or tampered with during the poll and this seal shall NOT be removed during or after the poll in the polling station.

At the end of the poll at prescribed hour, the Presiding Officer shall remove the cap over 'CLOSE' Button without disturbing the Strip Seal and press the 'Close' Button to close the poll and replace the cap. After completing other formalities at the end of the poll, the Presiding Officer shall carefully pack the Control Unit in its carrying case and seal the carrying case with address tag. This sealed carrying case shall be delivered to the Counting Centre.

On the day of the counting, the Control Unit with the Strip Seal intact, shall be allowed to be examined by the candidates/counting agents present at the Counting Table. Only thereafter, the seal shall be removed taking care that the Green Paper Seals are not damaged. After examining the Green Paper Seals protruding outside, the thread seal on the outer door of the Control Unit shall be opened.

IMPORTANT PRECAUTIONS

- (i) The Strip Seal shall be positioned to cover the portion below the 'CLOSE' Button cap on the outer door of the Result Section. While fixing this strip, ensure that the 'CLOSE' Button is left clear and not covered even partially by this strip so that there is no difficulty to operate that button.
- (ii) The Strip Seal shall be fixed tight and shall not be loose.
- (iii) DO NOT USE DAMAGED STRIPS.

- (iv) Each polling station will be supplied with four (4) Strip Seals like Green Paper Seals.
- (v) Presiding Officers shall account for each Strip Seal supplied to the polling station for the conduct of poll.
- (vi) They should return every Strip Seal that is not used (including the strips (or pieces thereof) damaged accidentally to the Returning Officers who will be held responsible if any Strip Seal is found in the hands of any unauthorized person at any time.
- (vii) The Election Authority and the District Election Authority shall keep a record of the serial numbers of the Strip Seals supplied to each Returning Officer. Similarly, each Returning Officer shall keep a record of the Strip Seals supplied to each polling station.

VOTING MACHINE READY FOR ACTUAL POLL

The voting machine is now ready in all respects for use for actual poll.

Before commencing the poll, you should place the balloting unit(s) inside the voting compartment. As already instructed, the voting compartment should be located at sufficient distance from your table where the control unit shall be kept and operated. The interconnecting cable between the balloting unit and the control unit has a length of approximately five meters. Therefore, the voting compartment should be reasonable distanced. Also, the cable should be so routed that it does not obstruct the movement for voters inside the polling station and they have not to tread or trip over it. While placing the EVM in the Voting Compartment, it must be ensured without fail that secrecy of voting is not violated.

CHAPTER - XII

COMMENCEMENT OF THE POLL

COMMENCEMENT OF THE POLL

Commence the poll at the stroke of the hour fixed for the purpose. Your preliminaries should be over by then. If unfortunately the preliminaries are not over, admit three or four voters at the hour fixed for the commencement of the poll and let the Polling Officer deal with them in regard to their identification, etc. until the preliminaries by you are over. This sort of overlapping of preliminaries is very undesirable and every effort should be made to avoid it. Even if for any unforeseen reason you are not in a position to commence the poll at the appointed hour, you have no authority to extend the appointed polling hours or the closing time except to continue the poll beyond the closing hour until all the electors present at the polling station at the hour appointed for the close of poll (who were distributed slips signed by you in full starting from the tail of the queue towards its head) have voted, as provided in para 1.2 of Chapter XXIV.

WARNING ABOUT SECRECY OF VOTING

Before commencing the poll, explain to all present the provisions of Section 602 of Greater Hyderabad Municipal Corporation Act, 1955 (Annexure II), regarding their duty to maintain the secrecy of the vote and the penalty for any breach thereof.

PRECAUTIONS FOR INDELIBLE INK

Ask the Polling Officer in-charge of indelible ink to take adequate precautions to see that the phial containing the indelible ink is kept in such a manner that it does not get tilted and the ink spilt during the poll. For that purpose, take some sand or loose earth in a cup provided for the purpose or an empty tin or some such broad-bottomed vessel, and push the phial down three quarters of its length into the centre of the vessel so that it is steadily embedded in the sand or earth. Also ensure that the plastic rod attached to the cork is left standing in the phial and not taken out except for the purpose of marking the voter's forefinger. The rod should always be held with its marking end pointing vertically downwards. Otherwise, some of the ink will drip down the rod and spoil the fingers of the person using it.

MARKED COPY OF THE ELECTORAL ROLL

Before the commencement of poll, you should also demonstrate to the polling agents and others present at the polling station that the copy of electoral roll intended to be used as the marked copy does not contain any marks or entries other than the "E.D.C". marks against the names of those voters to whom election duty certificates have been issued and marks 'PB' against the entries of those voters to whom postal ballot papers have been issued.

REGISTER OF VOTERS IN FORM XXXIV

Also show to the polling agents and others present that the Register of Voters (in form XXXIV) (**Annexure – XVI**) (in which entries will be made in respect of each elector who is allowed to vote and his signature/ thumb impression obtained) does not already contain any entry in respect of any elector.

ENTRY OF VOTERS TO POLLING STATION TO BE REGULATED

There should be separate queues for men and women voters. The persons who enforce the queues will allow three or four voters into the polling station at a time, as you direct. Other voters waiting to come in should be made to stand in queue outside. Infirm voters and women voters with babies in arms may be given precedence over other voters in the queue. Men and women voters should be admitted into the polling station in alternate batches. The formation of more than one queue for men voters or for women voters should not be allowed.

You should admit into the polling station only the following persons:

- (a) the electors;
- (b) polling officers;
- (c) each candidate, his election agent and one polling agent of each candidate at a time;
- (d) persons authorised by the Commission;
- (e) public servants on duty;
- (f) a child in arms accompanying an elector;
- (g) a person accompanying a blind or an infirm voter who cannot move or vote without help; and
- (h) such other persons as the Presiding Officer may from time to time admit for the purpose of identifying voters or otherwise assisting him in taking the poll.

CHAPTER - XIII

SAFEGUARDS FOR FREE AND FAIR ELECTION

DECLARATIONS BY PRESIDING OFFICER AS SAFEGUARDS FOR ENSURING FREE AND FAIR ELECTION

In order to ensure that you have duly carried out the instructions contained in the foregoing chapters regarding the demonstration of the voting machine, marked copy of the electoral roll and Register of Voters and obtaining the signatures of the candidates/polling agents on the green paper seal and allowing them to note down their serial numbers, which are necessary safeguards for ensuring free and fair election, you are required to read out the declaration prescribed in Annexure VII Part I before the commencement of the poll. This should be done immediately after reading out the provisions of section 602 of Greater Hyderabad Municipal Corporation Act, 1955 regarding maintenance of secrecy of voting. You should read out the declaration aloud to the hearing of all persons present in the polling station and sign the declaration and obtain thereon the signatures of such of the polling agents as are present and are willing to affix the same. You should also record there on the names of the polling agents who decline to affix their signatures on the declaration.

PROCEDURE TO BE FOLLOWED AT THE TIME OF USE OF NEW VOTING MACHINE

During the course of poll, if it becomes essential under compelling circumstances to use a new voting machine, you are again required to read out a further declaration, prescribed in Part II of **Annexure VII** (At the end of the poll, you should record a further declaration in Part III of **Annexure VII** in the same manner). The declaration will be put into a separate packet and delivered to the Returning Officer after the conclusion of the poll along with the account of votes recorded and the paper seal account in Form XXXVI (**Annexure – XXI**) and the Presiding Officer's Diary.

CHAPTER - XIV

ENFORCEMENT OF ELECTION LAW IN AND AROUND POLLING STATION

IMPARTIALITY ESSENTIAL

Your tact, firmness and impartiality, particularly the last, are the most important safeguards against any breach of the peace. Treat all parties and candidates equally and decide fairly and justly every disputed point. Needless to say, neither you nor any other officer at your polling station should do any act, which could be interpreted as furthering the prospects of any candidate at the election.

BAN ON CANVASSING

It is an offence to canvass within one hundred meters of the polling station. Any person who does so can be arrested without warrant by the police and may be prosecuted under section 604 of GHMC, Act 1955 (See **Annexure-I**).

CANDIDATE'S ELECTION BOOTH

According to the instructions of the Commission, no election booths of the candidates should be allowed to be set up as such booths pose many difficulties in the way of holding free, fair and smooth elections by creating obstructions to voters, confrontation among various party workers and law and order problems. However, the candidates may provide one table and two chairs for the use of their agents and workers for the distribution of unofficial identity slips to voters beyond a distance of 200 meters from the polling station with an umbrella or a piece of tarpaulin over their head to protect them from the sun/rain. No crowd is allowed to collect around such tables. If any instance of violation of the above instructions of the Commission is brought to your notice, you should report the matter to the Sector Magistrate or other officials responsible for maintenance of law and order around your polling station for necessary remedial action by them.

DISORDERLY CONDUCT IN OR NEAR THE POLLING STATION

Enforce the provisions contained in section 605 of GHMC Act, 1955 (See **Annexure I**). If any person behaves in a disorderly manner, you can have him arrested then and there by a Police Officer and have him prosecuted. The police have the power to take such steps, and use such force, as may be reasonably necessary for preventing such behaviour. These powers should, however, be resorted to only when persuasion and warning have proved ineffective. If the use of a megaphone or loudspeaker interferes with the work of the polling station, you should take steps to stop such use. The section does not prescribe any limit of distance. It is left to you to decide whether it is near enough and loud enough to disturb the proceedings at the polling station.

REMOVAL OF TROUBLE MAKERS

Any person who misconducts himself or fails to obey your lawful directions during the poll may be removed from the polling station on your orders by any Police Officer or other persons authorised by you (see section 606 of GHMC Act, **Annexure-I**).

ILLEGAL HIRING OF VEHICLES FOR THE CONVEYANCE OF VOTERS

You have no positive powers to check the illegal conveyance of voters. If a complaint to that effect is made, tell the complainant that he may take action to prosecute the offender under section 607 of GHMC Act, or use the fact as a ground for filing an election petition against the offending candidate in due course. Forward any complaint filed before you to the Sub-divisional or other magistrate who has jurisdiction to deal with such cases with such remarks which you can make from your own observation and personal knowledge.

Also follow the instructions/directives issued by the Election Commission regulating the plying of vehicles on the day of poll.

REMOVAL OF VOTING MACHINE FROM POLLING STATION TO BE AN OFFENCE

Any person who at any election fraudulently or unauthorisedly takes or attempts to take a voting machine out of a polling station or willfully aids or abets the doing of any such act commits a cognizable offence punishable with imprisonment upto one year or with fine upto five hundred rupees or with both. In this connection section 608 of GHMC Act, 1955 may be seen.

BREACH OF OFFICIAL DUTY BY OFFICERS ON ELECTION DUTY

Your attention is also drawn to section 610 which provides that if any Presiding or Polling Officer is without reasonable cause guilty of any act, or even of any omission, in breach of his official duty, he commits a cognizable offence.

PROHIBITION OF GOING ARMED TO OR NEAR A POLLING STATION

As per the provisions of Section 607B of GHMC Act, 1955 no person (other than the Returning Officer, the Presiding Officer, any police officer and any other person appointed to maintain peace and order at a polling station who is on duty at the polling station) can, on a polling day, go armed with arms, as defined in the Arms Act, 1959, of any kind within the neighbourhood of a polling station. If any person contravenes these provisions, he is liable to imprisonment for a term, which may extend to two year or with fine, or with both. The offence is cognizable.

CHAPTER - XV

VERIFICATION OF ELECTOR'S IDENTITY AND PROCEDURE IN CASE OF CHALLENGE

VERIFICATION OF ELECTOR'S IDENTITY

1. As has already been explained in Chapter V, an elector on entering the polling station will proceed direct to the first Polling Officer who will be in-charge of the marked copy of the electoral roll and responsible for identification of electors. The Polling Officer should properly verify his identity with reference to the entry in the electoral roll.
2. Usually, each voter brings with him an unofficial identity slip, which might have been issued to him by a candidate or his agents. This slip should be on a plain white paper and may contain the name of the elector, his serial number in the electoral roll, part number of the electoral roll and the number and name of the polling station where he is to cast his vote. The slip should not contain the name of the candidate and/or the name of the party and/or facsimile of symbol allotted to him. If any slip has been issued by a candidate or his party in violation of these instructions of the Commission and is brought to the polling station, it should be brought to the notice of the polling agent of the candidate concerned forthwith for putting an immediate end to such violation.
3. It should be noted that carrying of unofficial identity slip by an elector does not guarantee the identity of the voter nor does it absolve the Polling Officer of his duty and responsibility of satisfying himself about the identity of such voter.
4. The first Polling Officer in-charge of the marked copy of the electoral roll and identification of electors should not treat the identity of an elector established by the mere production of an 'unofficial identity slip' which he brings to the polling station. Though such a slip helps in locating the entries relating to an elector in the electoral roll, it cannot be automatically taken for granted that the person producing the slip is

that particular voter. Further, an illiterate voter cannot read the entries in the unofficial identity slip and satisfy himself that the slip held by him/her actually relates to him/her. Therefore, the first Polling Officer should simply take the slip and read out only the Serial Number of the entry of the elector in the electoral roll and not read out his/her name and other particulars from the slip.

5. The Commission is now insisting on documentary identification of electors. The electors are required to produce the electoral photo identity card (EPIC) or other documents notified by the State Election Commission to establish their identity. You must obtain a copy of the order issued by the State Election Commission listing out the documents that can be allowed for the purpose of identity of the electors at the polling station and enforce its compliance. The polling officer in-charge of identification must satisfy himself about the identity of the elector after examining the EPIC or the alternative documents, as the case may be, and in case of any doubt the elector should be directed to present himself before you make a further probe about the identity of the elector. You should hand over the person to the police with a written complaint in case he is proved to be an impersonator. It may be noted that clerical and other minor errors in the EPIC may be ignored and overlooked.
6. In case there are large number of women electors especially 'pardanashin' (burqa clad) women, a woman Polling Officer may be appointed to carry out the above duties in a separate enclosure as instructed in Chapter IV.
7. Any village chowkidar/Revenue Officer or the like who may be employed as identifying Officer by the Presiding Officer should be normally posted outside the entrance of the polling station and should be admitted into the polling station only when he is required for the identification of a particular elector or for assisting the Presiding Officer for a particular purpose in connection with the taking of the poll.

LIST OF DEAD, ABSENT AND ALLEGEDLY BOGUS VOTERS.

It is expected that polling agents may bring with them a copy of the list of the names of dead, absent and allegedly bogus voters. The candidate or his party may supply similar list to you. If any person claims to be a voter whose name is mentioned in that list you shall check that person's identity rigorously. This will not amount to a formal challenge.

CHALLENGED VOTES

The polling agents can also challenge the identity of a person claiming to be a particular elector by depositing a sum of Rs.5/- in cash with the Presiding Officer for each such challenge. The Presiding Officer shall hold a summary inquiry into the challenge. If after the inquiry the Presiding Officer considers that the challenge has not been established, he shall allow the person challenged to vote. If he considers that the challenge has been established, the Presiding Officer shall debar the person challenged from voting and shall handover such person to the police with a written complaint. All such complaints to the Police should be vigorously pursued and prosecutions launched against the offenders so that they are convicted and suitably punished.

CHALLENGING A VOTER'S IDENTITY

Every person whose name is entered in the electoral roll is entitled to vote at the election. Unless, there is a challenge by a candidate or his election or polling agents, or unless you are clearly satisfied that he is a bogus voter, it should normally be presumed that the person claiming to be a voter and giving out the name and other details correctly and producing the prescribed identification document is that voter. If there is a challenge or if you feel any reasonable doubt about the identity of the person from the surrounding circumstances, you should hold a summary inquiry and decide the question.

CHALLENGE FEE

You should not entertain any challenge by a candidate or his election/polling agent of a voter's identity until the challenger pays five rupees in cash. After the amount has been paid, furnish a receipt therefore to the challenger in the Form prescribed in **Annexure XVIII**. Warn the person challenged about the penalty for personation read out the relevant entry in the electoral roll in full and ask him whether he is the person referred to in that entry, enter his name and address in the list of Challenged Votes (Form XX) (**Annexure – XVII**) and ask him to sign or affix his thumb impression thereof. If he refuses to do so, do not allow him to vote.

SUMMARY INQUIRY

First ask the challenger to produce evidence to show that the person challenged is not the voter that he claims to be. If the challenger fails to adduce prima facie evidence in support of his challenge, disallow the challenge and allow the person challenged to vote. If the challenger succeeds in making out a prima-facie case that the person is not the voter in question, you should call upon the latter to produce evidence to rebut the challenge i.e. to prove that he is the voter he claims to be. If he proves his claim by such evidence, allow him to vote. If he fails to do so, hold that the challenge has been established. In the course of the inquiry, you are free to ascertain the true fact from the village officer, the neighbours of the voter in question and any other person present. While taking evidence, you may administer an oath to the person challenged or any other person offering to give evidence. In case the challenge has been established, you should hand over the person to the policeman on duty, together with your complaint, as in **Annexure IX**, addressed to the Station House Officer of Police Station in the jurisdiction of which your polling station falls.

RETURN OF FORFEITURE OF CHALLENGE FEE

Immediately after the inquiry is over return the challenge fee of five rupees to the person who made the challenge after taking his receipt in Column 10 of Form XX-List of Challenged Votes (**Annexure XVII**) and on the counterfoil of the relevant receipt in the receipt book, in every case, except

where you are of the opinion that the challenge was frivolous or was not made in good faith. In the latter case, forfeit the challenge fee to Government and do not return it to the challenger and enter the word 'forfeited' in Column 10 of Form XX (**Annexure XVII**) and the relevant counterfoil in the receipt book, instead of taking the depositor's signature or thumb impression.

CLERICAL AND PRINTING ERRORS IN THE ROLL TO BE OVERLOOKED

The particulars in respect of a voter as entered in the electoral roll are sometimes incorrectly printed or have become out of date e.g., regarding the exact age of the voter. You should overlook mere clerical and printing errors in any entry relating to a voter in the poll, provided that you are otherwise satisfied about the identity of the person claiming to be the voter, according to other particulars entered in electoral roll. When the electoral roll has been prepared in more than one language and the name of a person has not been included in the marked copy of the electoral roll, such a person should be allowed to vote if his name appears in the version of the electoral roll in the other language for the same area. An entry in respect of every such elector should be noted by you in ink on the marked copy of the electoral roll.

ELIGIBILITY OF A VOTER NOT TO BE QUESTIONED

So long as the identity of a voter is established to your satisfaction, he has the right to vote. No question can be raised at the polling station about the eligibility of such a person to be a voter. For instance, you are not entitled to hold any inquiry into the question whether he is over 18 years of age or ordinarily resides in the constituency.

DECLARATION OF ELECTOR ABOUT HIS AGE

But in the case of a person whom you consider much below the qualifying age, you must be clearly satisfied about his claim of being elector with reference to the entry in the electoral roll relating to him.

If you are prima facie satisfied about his identity and the fact of

inclusion of his name in the electoral roll but consider him to be below the minimum voting age, you should obtain a declaration as in **Annexure X** from that elector about his age on the 1st day of January of the year with reference to which the existing electoral roll of the constituency has been prepared/ revised. Before obtaining the declaration from such elector, you should inform him of the penal provision in section 609 of GHMC Act, 1955 for making false declaration who refuse to give the aforesaid declaration and go away without casting their votes. After the close of the poll, the above mentioned list and the declarations should be kept together in a separate cover.

You should also prepare a list of Voters from whom you have obtained such declarations in Part I of **Annexure XI**. You should also maintain a list in Part II of the said Annexure XI of such voters who refuse to give such declarations and go away without casting their votes. After the close of Poll, the above mentioned list and the declarations should be kept together in a separate cover.

CHAPTER - XVI

APPLICATION OF INDELIBLE INK AND OBTAINING SIGNATURE/ THUMB IMPRESSION OF ELECTOR BEFORE PERMITTING HIM TO RECORD HIS VOTE

INSPECTION OF VOTER'S LEFT FOREFINGER AND APPLICATION OF INDELIBLE INK

As soon as may be, after the identity of an elector has been verified by the first Polling Officer, and if there is no challenge as to the elector's identity, his left forefinger will be marked with indelible ink by the second polling officer in the manner described in Chapter V. If any elector refuses to allow his left forefinger to be inspected or marked in accordance with instruction or has already such a mark on his left forefinger or does any act with a view to removing the ink, he shall not be allowed to vote.

In case it is noticed that an elector has applied any oily or greasy substance on his finger in order to neutralise the indelible ink mark to be put on his finger, such oily or greasy substance should be removed by the polling officer with the help of a piece of cloth or rug before putting indelible ink mark on the finger of that elector.

APPLICATION OF INDELIBLE INK AT FRESH POLL

At the time of fresh poll/countermanded poll, the marking with indelible ink made at the original poll should be ignored and fresh marking with indelible ink should be put at the root of the nail of the voter's left middle finger in such a way that a portion of the ink spreads on the ridge between the skin and the root of the nail and a clear mark is left. The procedure as explained in paras 1.3 and 1.4 above should be followed in case of Fresh Poll also.

APPLICATION OF INDELIBLE INK WHEN ELECTOR HAS NO LEFT FOREFINGER

If an elector has no left forefinger, then indelible ink should be applied on any such finger which he has on his left hand. If he does not have any fingers on his left hand, the ink should be applied on his right forefinger and if

he has no right forefinger, on any other finger which he has on his right hand starting with his right forefinger. If he has no fingers on either hand, ink should be applied on such extremity (stump) of his left or right hand as he possesses.

RECORD OF ELECTORAL ROLL NUMBER OF ELECTOR IN REGISTER OF VOTERS

After the left forefinger of the elector has been marked first time by the Second Polling Officer in the manner explained in the preceding paragraph, he should maintain the record of such elector in the Register of Voters (Form XXXIV) (**Annexure – XVI**) and obtain the signature/thumb-impression of the elector on that Register.

Such record shall be maintained by the Second Polling Officer in the Register of Voters in the following manner:

- (i) In column (1) of the Register of Voters, the Second Polling Officer will write down the serial numbers of electors in consecutive order, starting with serial number 1. (Generally the serial numbers of electors in consecutive order are already printed in the Register.) Each page of the Register contains 10 serial numbers. If the serial numbers are not already printed in column (1), at the commencement of poll, he can write such serial numbers in advance on a few pages.
- (ii) In column (2) of the said Register, the Second Polling Officer will write down the electoral roll number (i.e., the serial number) of the elector as entered in the marked copy of the electoral roll. For example, if the name of the first elector who comes to vote at the polling station at the commencement of poll is entered at serial number 756 in the marked copy of the electoral roll, the Second Polling Officer will write down serial number 756 in the second column against serial No. 1 in the first column of the Register of voters. Likewise, if the second voter's name is entered at serial number 138 in the electoral roll, the Second

Polling Officer will write serial number 138 in column 2 against serial number 2 in column 1 of the Register, and so on. Instructions regarding entering the serial number of electors voting on 'EDC' are given in Chapter XXI.

After columns (1) and (2) of the Register having been filled in respect of an elector in the manner described above, his signature/thumb-impression shall be obtained by the Third Polling Officer in column (3) of that Register.

SIGNATURE OF ELECTOR

A signature may be described as the writing of a person's name on a document with the intention of authenticating that document. A literate person, while signing on the register of voters, will be required to write his name, i.e. both his name or names and his surnames in full or in any case his surname in full or names either in full or by means of initials of that name or names. The preferable course in the case of a literate voter will be to request him to sign his name, i.e., both his name or names and his surname in full. If a literate person puts simply a mark and insists that, that mark should be taken as a signature, while claiming to be a literate person, then, that mark cannot be taken to be his signature because as stated, signature means, in the case of a literate person, the writing of the name of that person by himself in authentication of a document on which he writes his name. In such a case, if he refuses to sign his name in full as indicated above, then his thumb impression should be taken. If he refuses to give his thumb impression also, then he should not be allowed to vote in terms of rule 72 of Conduct of Elections Rules, 2005.

THUMB IMPRESSION OF ELECTOR

If an elector is unable to sign his name, the impression of his left thumb should be obtained on the Register of Voters. It should be noted that it is not necessary for the Presiding Officer or any Polling Officer to attest such thumb impression on the Register.

In conformity with rule 21(4) of the Conduct of Elections Rules, 2005 regarding application of indelible ink, if the left thumb of voter is missing, then

the impression of right thumb should be taken. If both thumbs are missing, the impression of one of the fingers of the left hand starting from the forefinger should be taken. If there are no fingers on the left hand, the impression of the fingers of the right hand should be taken. If no fingers are available, the voter being unable to record his vote himself will necessarily have to seek assistance of a companion under rule 74 of the said rules. In that case, the signature or thumb impression of the companion should be taken on the Register of Voters.

It is necessary that the thumb impression on the Register of Voters should be a clear thumb impression. The thumb of the voter should not be inked so lightly from the stamping pad that it gives only a faint or undecipherable impression. Nor should the thumb be inked so heavily that it gives a smudge impression instead of a clear thumb impression on the register.

After taking the thumb impression, the ink on the elector's thumb should be wiped off with the help of wet piece of cloth.

SIGNATURE/THUMB IMPRESSION ON THE REGISTER OF THE REGISTER OF VOTERS BY BLIND OR INFIRM OR LEPER VOTERS

Thumb impression of a blind voter or a voter suffering from leprosy should be obtained on the Register of Voters. In case any such voter is literate, he may be allowed to put his signature in place of thumb impression. In case of infirm voter who cannot use either of his hands, his companion shall put his signature or thumb impression on the Register. A note may be made against such entry in the Register regarding that signature or thumb impression being of the companion.

ISSUE OF VOTER'S SLIP TO ELECTOR

1. After an elector's left forefinger has been marked with indelible ink, the entry relating to him made in the Register of Voters and his signature/thumb-impression obtained on that Register, the Third Polling Officer shall prepare a Voter's Slip for that elector in the following form:

VOTER'S SLIP

Serial No. of elector as per Col. (1) of the Register of voters
Serial No. of elector as entered in the electoral roll
Initials of Polling Officer

These Voter's Slips will be got printed by the Returning Officer in a paper of half the dimension of a post-card and will be supplied to you, as one of the items of polling materials, in stitched bundles of hundred slips and/or fifty slips each, having regard to the number of electors assigned to your polling station.

The Voter's Slips prepared by the Third Polling Officer in respect of each elector shall be delivered by him to that elector and the elector shall be directed to proceed to the fourth Polling Officer who is in-charge of the control unit of the voting machine.

CHAPTER - XVII

RECORDING OF VOTES AND VOTING PROCEDURE

1. The elector will come to the fourth Presiding Officer or the fourth polling officer in-charge of the control unit of the voting machine with the voter's slip issued to him by the Third polling officer. He will be allowed to vote only on the basis of such voter's slip.
2. It is absolutely essential that the voters go to the voting compartment to record their votes in the voting machine in exactly the same order in which they have been entered in the Register of Voters. The polling officer in-charge of control unit should, therefore, allow a voter to proceed to the voting compartment strictly according to the serial number mentioned in the voter's slip.
3. If due to any exceptional circumstance or unforeseen or unavoidable reason, it has not been possible to follow such exact serial order in respect of any elector, a suitable entry showing the exact serial number at which he has voted should be recorded in the remarks column of the Register of Voters against the person concerned. Similar entries should also be made in respect of the subsequent voters whose serial order has been disturbed thereby.

PERMITTING ELECTOR TO RECORD VOTE

1. When the elector comes with the voter's slip to the fourth polling officer in-charge of control unit, the voter's slip will be taken from him and he will be allowed to vote.
2. All voter's slips collected from electors shall be carefully preserved and kept in a separate cover at the end of poll. The Returning Officer will provide a special cover for the purpose, which will be sealed and secured in the manner directed in Chapter XXVII.
3. After the voter's slip has been collected from the elector, his left forefinger shall be checked by the fourth polling officer in-charge of the control unit. If the indelible ink made thereon is indistinct or has been

removed, the same shall be marked again, so as to leave a clear indelible mark.

4. The elector shall then be directed to proceed to the voting compartment to record his vote.

VOTING PROCEDURE

1. To enable the elector to record his vote, the 'Ballot' button on the control unit shall be pressed by the fourth polling officer in-charge of that unit, which would make the balloting unit(s) kept in the voting compartment ready for recording the vote. On the Ballot button being pressed, the 'Busy' lamp in the control unit will glow 'Red' and simultaneously the 'Ready' lamp on the balloting unit in the voting compartment will start glowing 'Green.'
2. The elector will record his vote in the voting compartment by pressing on the balloting unit, the 'Blue Button' provided against the name and symbol of the candidate of his choice. When he presses that button, the lamp provided on the balloting unit against the name and symbol of that candidate will start glowing 'Red' and 'green' light on the balloting unit will go off. Also, a 'beep' sound will be heard emitting out from the control unit. After a few seconds, the beep sound and the red light in the candidate's lamp on the balloting unit and the red light in the 'Busy' lamp on the control unit will also go off.
3. These visual and audio signs are indicative of the fact that the voter inside the voting compartment has recorded his vote. The voter should forthwith come out of the voting compartment and leave the polling station.
4. The above procedure will be repeated every time the next voter is to be allowed to record his vote. It should be ensured that only one voter goes at a time inside the voting compartment to vote. It should also be ensured that the Ballot button on the control unit is pressed only when the earlier voter has come out of the voting compartment.
5. If any voter is not familiar with the voting procedure, and seeks

assistance, the procedure given in para 3.2 above should be explained to the voter in front of the polling agents. Under no circumstances should anyone enter the voting compartment to assist the voter.

TALLYING OF NUMBER OF VOTES POLLED PERIODICALLY

1. At any time, if the total number of votes polled upto that time has to be ascertained, the 'Total' button on the control unit should be pressed. The display panel on the control unit will then show the total number of votes polled by that time. This should be periodically done and tallied with the number of voters allowed to vote upto that time as reflected in the Register of Voters.
2. In any event, you must ascertain and tally the number of votes polled during every two hours interval and record the number of votes polled in the relevant columns in the Presiding Officer's diary.
3. The total button should be pressed only when the busy lamp is not on, i.e. only after the elector allowed to vote has recorded his vote, and before the next elector is allowed to vote by pressing the Ballot button.

PRESIDING OFFICER'S ENTRY IN VOTING COMPARTMENT DURING POLL

1. Sometimes, the Presiding Officer may have a suspicion or reason to suspect that the balloting unit kept in the screened voting compartment is not functioning properly or that an elector who has entered the voting compartment is tampering or otherwise interfering with the balloting unit or has remained inside the voting compartment for unduly long period. The Presiding Officer has a right under rule 77 to enter the voting compartment in such cases and to take such steps as may be considered necessary by him to ensure that the balloting unit is not tampered or interfered with in any way and that the poll progresses smoothly and orderly.
2. Whenever the Presiding Officer enters the voting compartment, he should permit the polling agents present to accompany him, if they so desire.

CHAPTER - XVIII

MAINTENANCE OF SECRECY OF VOTING BY ELECTORS

VOTING PROCEDURE TO BE STRICTLY OBSERVED

Every elector who is permitted to vote shall maintain absolute secrecy of voting within the polling station. He should strictly observe the voting procedure mentioned in Chapter XVII.

REFUSAL TO OBSERVE VOTING PROCEDURE

If any elector refuses, after warning given by you, to observe the voting procedure, you or a polling officer under your direction shall not allow such elector to vote under rule 73 (6) of Conduct of Election of Member Rules, 2005. If the elector has already been issued the voter's slip, such slip should be withdrawn from him and cancelled.

Where an elector is not allowed to vote for violating voting procedure, a remark to the effect that voting procedure has been violated . 'Not allowed to vote'. Voting procedure violated:- shall be made in the remarks column in the Register of Voters (Form XXXIV) (**Annexure – XVI**) against the entry relating to that elector in that Register by you. You shall also put your full signature below that entry. It shall, however, not be necessary to make any change in the serial number of that elector or of any succeeding elector in column (1) of the Register of voters.

CHAPTER - XIX

VOTING BY BLIND AND INFIRM VOTERS

If you are satisfied that owing to blindness or other physical infirmity, an elector is unable to recognise the symbol on the balloting unit or unable to record his vote by pressing the appropriate button thereon without assistance, you shall permit that elector under rule 74 (2) to take with him a companion of not less than 18 years of age to the voting compartment for recording the vote on his behalf and in accordance with his wishes.

No person shall be permitted to act as the companion of more than one elector at any polling station on the same day.

Before any person is permitted to act as the companion of the elector, he shall be required to declare that he will keep secret the vote recorded by him on behalf of the elector and that he has not already acted as the companion of any other elector at any other polling station on that day. The declaration shall be obtained by you from the companion in the form prescribed by the Commission for the purpose vide **Annexure XIII**.

4. You shall also keep a record of all such cases in Form XVIII (**Annexure-XII**).

CHAPTER - XX

ELECTORS DECIDING NOT TO VOTE

If an elector, after his electoral roll number has been duly entered in the Register of Voters (Form XXXIV) (**Annexure–XVI**) and he has put his signature/thumb impression on that register, decides not to record his vote, he shall not be forced or compelled to record his vote.

A remark to the effect that he has decided not to record his vote. 'Refused to Vote' shall be made by you in the remarks column against the entry relating to him in the Register of Voters. You shall put your full signature below that remark.

The signature or thumb impression of the elector shall also be obtained against such remark under rule 75.

It shall, however, not be necessary to make any change in the serial number of the elector or of any succeeding electors in column (1) of the Register of Voters.

CHAPTER - XXI

VOTING BY PUBLIC SERVANTS ON ELECTION DUTY CERTIFICATES

FACILITIES FOR VOTING TO PUBLIC SERVANT ON ELECTION DUTY:

The provisions relating to the exercise of vote by persons on election duty are contained in of rule 69 of Conduct of Elections Rules, 2005

Presiding Officers, Polling Officers, or other public servants on election duty in the Ward in which they are registered as electors have been given the right to opt to vote in person in a polling station in which they are on election duty, if they so desire, and not by postal ballot. Any such voter opting to vote in person has to apply to the Returning Officer in Form XXIII (**Annexure – XIX**) for such facility. The Returning Officer on being satisfied that the person is entitled to the concession, will grant him Form of authorisation to Vote outside polling area in Form – XXIV (**Annexure–XX**).

No steps for identification of such person are required. He may be allowed to vote as under:

- (i) on production of Election duty certificate, obtain thereon the signature of the person producing the same;
- (ii) have the person's name and electoral roll number as mentioned in the certificate entered at the end of the marked copy of electoral roll; and
- (iv) permit him to vote by means of the voting machine in the same manner as for an elector entitled to vote at that polling station.

ALL PERSONS ON ELECTON DUTY TO APPLY FOR POSTAL BALLOT PAPER RATHER THAN EDC

UNDER THE PRESENT SYSTEM, DUTY TO POLLING PERSONS IS ASSIGNED BY THE METHOD OF RANDOM SELECTION AND NORMALLY THE PERSONS ARE ASSIGNED DUTY OUT SIDE THEIR CONSTITUENCIES, BUT WITHIN THE SAME DISTRICT. FURTHER, THE PERSONS ON POLLING DUTY COME TO KNOW ABOUT THE PLACE OF DUTY ONLY AT THE LAST MOMENT. THEREFORE, APPLICATIONS FOR EDC. FROM THOSE WHO MAY BE PUT ON DUTY IN THEIR OWN CONSTITUENCIES CAN GET DELAYED CONSIDERABLY. HENCE TO ENABLE ALL PERSONS ON POLLING DUTY TO EXERCISE THEIR FRANCHISE, THEY ALL MAY BE ASKED TO APPLY FOR AND OBTAIN POSTAL BALLOT PAPERS FOR VOTING. UNDER THE LAW, THERE IS NO BAR TO VOTE BY POST, EVEN IF THE PERSON IS PUT ON DUTY IN THE SAME CONSTITUENCY WHERE HE IS REGISTERED AS AN ELECTOR.

CHAPTER - XXII

TENDERED VOTES

If a person presents himself at the polling station and seeks to vote representing himself to be a particular elector after another person has already voted as such elector, you shall satisfy yourself about the identity of the elector concerned. If you are satisfied about the identity of the elector on his satisfactorily answering such questions relating to his identity as you may ask, you shall allow the elector concerned to vote by means of a tendered ballot paper, but not through the voting machine.

DESIGN OF TENDERED BALLOT PAPER

Under rule 76, a tendered ballot paper shall be of such design and particulars thereon shall be in such language or languages as the State Election Commission may specify. The Election Commission has specified under that rule that the tendered ballot paper shall be of the same design as the ballot paper, which shall be used for display on the balloting unit of the voting machine at the polling station.

The Returning Officer will, therefore, provide to each polling station twenty ballot papers, which he has got printed for use in the balloting units of voting machines, to be used as tendered ballot papers. In case it becomes necessary to supply any additional ballot papers to any polling station for the above purpose, the same will be arranged by the Returning Officer to be supplied to the Presiding Officer of the polling station concerned on demand through the zonal officer incharge of that polling station.

You will write the words 'Tendered Ballot Paper'. on the back of these ballot papers in your own hand, if these words are not already stamped there, and issue them, if necessary, as tendered ballot papers.

ACCOUNT OF TENDERED BALLOT PAPERS

You shall keep a correct account of all ballot papers (i) received for use as tendered ballot papers, (ii) issued as such to electors, and (iii) not used and returned, in Item 8 of Part I of **Form XXXVI (Annexure – XXI)**.

RECORD OF VOTERS TO WHOM TENDERED BALLOT PAPERS ISSUED

You shall also maintain complete record of the electors who have been issued with tendered ballot papers, in **Form XXXV (Annexure – XXII)**. You shall also obtain the signature or thumb impression of the elector in Column (5) of that Form before delivering a tendered ballot paper to him.

RECORDING OF VOTE ON TENDERED BALLOT PAPER

While delivering a tendered ballot paper to the elector, he shall also be supplied with inked arrow cross mark rubber stamp. This stamp is the same which is used for marking ballot papers, where the conventional system of ballot papers and ballot boxes is used and which will be supplied as one of the items of polling materials for use at the polling station.

On receiving the tendered ballot paper, the elector concerned will mark his vote thereon in the voting compartment by putting the cross mark on or near the symbol of the candidate for whom he intends to vote by means of the arrow cross mark rubber stamp.

The elector will then fold the tendered ballot paper and, after coming out of the voting compartment, hand it over to you.

You shall keep all the tendered ballot papers and the list in **Form XXXV (Annexure– XXII)** in a cover specially provided for the purpose and seal the cover at the close of the poll.

If owing to blindness or physical infirmity, such elector is enabled to record his vote without assistance, the Presiding Officer shall permit him to take with him a companion in accordance with the procedure mentioned in Chapter XIX.

REPORTING TO THE RETURNING OFFICER WHERE PERCENTAGE OF TENDERED VOTES POLLED IS NOT LESS THAN 2% OF TOTAL VOTES POLLED

The State Election Commission issued a notification that at any Polling Station, where election to directly elected offices in local bodies takes place, if the percentage of tendered votes recorded is not less than 2% of the total votes polled at the Polling Station, the matter shall be brought to the notice of State Election Commission through the Returning Officer and District Election Authority. The State Election Commission in such case will take a decision whether to order for a repoll or not and issue orders.

CHAPTER - XXIII

ADJOURNMENT/STOPPAGE OF POLL FOR RIOT, BOOTH CAPTURING, ETC.

ADJOURNMENT OF POLL FOR RIOT, ETC.

Under section 58 of GHMC Act, 1955 the Presiding Officer of a polling station is empowered to adjourn the poll on account of .

- (i) a natural calamity
- (ii) any other sufficient cause.

1. The poll should also be adjourned if the taking of the poll is rendered impossible on account of any natural calamity or other sufficient cause. A passing shower of rain or strong wind would not be a sufficient cause for adjournment of poll. The discretion given to you to adjourn the poll should be exercised most sparingly and only in cases where it has become physically impossible to take the poll.
2. In every case of adjournment of poll, report immediately the full facts to the Returning Officer. Wherever a poll is adjourned, announce formally to all present that the poll will be taken on a day to be notified subsequently by the Election Commission.
3. Seal and secure both the units of the voting machine and all election papers in the presence of the polling agents as if the poll has come to a close in the normal way.

COMPLETION OF ADJOURNED POLL

1. Where the poll has been adjourned at a polling station [under the provisions of sub-section (1) of section 58], the adjourned poll will recommence on the date and time fixed by the Election Commission from the stage at which it was left immediately before the adjournment, i.e. the electors who have not already voted before the poll was adjourned will alone be permitted to vote at the adjourned poll. The Returning Officer will provide the Presiding Officer of the polling station, at which such adjourned poll is taken, with the sealed packets containing the marked copy of the electoral roll and the register of

Voters in Form XXXIV, which were earlier used at that polling station, and a new voting machine.

2. Before the re-commencement of the adjourned poll, the sealed packet containing the marked copy of the electoral roll, and the Register of Voters should be reopened by you in the presence of the candidates or their agents, who may be present at the polling station, and this very marked copy of the electoral roll, and the Register of Voters should be used for completion of adjourned poll.
3. The provisions of rule 83 will apply to the conduct of an adjourned poll as they apply to the poll before it was so adjourned.
4. Where the poll could not be commenced due to non-arrival of the polling party or other reasons, the provisions of above mentioned rules will apply to every such adjourned poll as they apply to the original poll.

STOPPAGE OF POLL FOR FAILURE OF VOTING MACHINE BOOTH CAPTURING ETC.

1. Under sections 59 A of the GHMC Act, 1955 the State Election Commission is competent to declare the poll at a polling station to be void and direct a fresh poll, if at that polling station-
 - (i) any voting machine has been unlawfully taken away by any unauthorised person, or
 - (ii) any voting machine has been accidentally or intentionally destroyed or lost or damaged or tampered with and the result of the poll at that polling station cannot be ascertained for that reason, or
 - (iii) any voting machine develops a mechanical failure during the course of the recording of votes, or
 - (iv) any error or irregularity in procedure as is likely to vitiate the poll has been committed, or
 - (v) there has been booth capturing (as defined the Section 59A of the said Act.).
2. If any such thing happens at your polling station, you should report full facts forthwith to the Returning Officer to enable him to report the matter to the Election Commission for its directions.

3. After considering all material circumstances, if the Commission directs fresh poll to be taken at a polling station, such fresh poll shall be taken in the same manner as the original poll.
4. All electors entitled to vote at the polling station in question will be entitled to vote again at the fresh poll. The marks of the indelible ink made at the original poll should be ignored at the fresh poll. To distinguish the marks to be made at the fresh poll from those already made at the original poll, the Commission has directed that the mark of the indelible ink should be put on the voter's left middle finger at the fresh poll.

CLOSING OF VOTING MACHINE IN THE CASE OF BOOTH CAPTURING

1. Rule 84 of the Conduct of Elections Rules, 2005 provides that where the Presiding Officer of a polling station is of the opinion that booth capturing is taking place at the polling station, he shall immediately close the control unit of the voting machine to ensure that no further votes can be recorded and he shall detach the balloting unit(s) from the control unit.
2. You should resort to closing the voting machine as mentioned above only when you are certain that the booth capturing is taking place and not on a mere apprehension or suspicion about the possibility of booth capturing. This is so because once the control unit is closed by pressing the 'Close' button, the voting machine will not record any further votes and the poll will have to be necessarily adjourned either for the day or temporarily till the new voting machine is provided to you for the conduct of further poll at the polling station.
3. As soon as possible after you have closed the voting machine under rule 84, you should report the matter with full facts to the Returning Officer. The Returning Officer shall, in turn, report the full facts of such case to the Election Commission through the fastest means of communication available.

4. The Election Commission, on receipt of the report from the Returning Officer and after taking into account all material circumstances, may.
 - (i) either decide to have the adjourned poll completed from the stage it was adjourned by providing a new voting machine, if it is satisfied that the poll upto that stage was not vitiated, or
 - (ii) declare the poll at the polling station as void, if it is satisfied that the poll was vitiated and direct a fresh poll at that polling station.
5. Where the poll is adjourned/stopped for the day by the closure of the voting machine under para 1 above, the voting machine and all election paper shall be sealed and secured in the same manner as on the close of poll.
6. Further steps to complete the adjourned poll or, as the case may be, conduct a fresh poll as directed by the Commission shall be taken in accordance with the procedure already mentioned above.

CHAPTER - XXIV

CLOSE OF POLL

VOTING BY PERSONS PRESENT AT POLLING STATION AT CLOSING HOUR

The poll should be closed at the hour fixed for the purpose, even if for certain unavoidable reason it had commenced somewhat later than the hour appointed for the commencement of poll. However, all electors present at the polling station at the hour appointed for the close of poll should be permitted to cast their votes even if the poll has to be continued for sometime beyond the appointed closing hour.

A few minutes before the appointed closing hour of the poll, announce to all those within the limits of the polling station who are waiting to vote that they will be allowed to record their votes in turn. Distribute to all such electors, slips signed by you in full, which should be serially numbered from serial No. 1 onwards according to the number of electors standing in the queue at that hour. Continue the poll even beyond the closing hour until all these electors have cast their votes. Depute police or other staff to watch that no one is allowed to join the queue after the appointed closing hour. This can be effectively ensured if the distribution of slips to all such electors is commenced from the tail of the queue and proceeded backwards towards its head.

CLOSING OF POLL

After all the electors present at the polling station at the appointed closing hour have voted as provided in the preceding para, you should formally declare the poll as closed and should not permit any person to vote thereafter in any circumstance.

CLOSING THE CONTROL UNIT OF VOTING MACHINE

1. For closing the poll after the last voter has recorded his vote, the voting machine has to be closed so that no further recording of votes in the machine is possible. For that purpose, you should press the 'Close' button on the control unit. When the 'Close' button is pressed the display panels on the control unit will show the total number of votes

recorded in the voting machine till the end of the poll (but not the candidate-wise tally). The total number of votes recorded in the machine should be immediately noted in Item 5 of Part I of Form XXXVI. You should thereafter disconnect the balloting unit from the control unit and put the power switch to 'OFF' position in the rear compartment of the control unit.

2. The 'Close' button is provided in a compartment in the Result Section below the blue coloured rubber cap on its outer cover and can be reached by simply pulling out the rubber cap. The rubber cap should be replaced after the 'Close' button has been pressed and the poll closed.
3. Once the 'Close' button is pressed, the voting machine will not accept any further votes. You should, therefore, be extremely cautious and absolutely certain before pressing the 'Close' button that no elector who was present at the time fixed for the close of poll remains to vote.
4. You should also note that the 'Close' button will function only when the 'Busy' lamp on the Control unit is not on, i.e., only after the last elector allowed to vote has recorded his vote. If the 'Busy' lamp is on by reason of the 'Ballot' button having been pressed by mistake after the last elector has recorded his vote or such last elector refusing to record his vote after the 'Ballot' button has been pressed for him, the 'Busy' lamp can be put off by switching off the 'Power' switch in the rear compartment of the control Unit and disconnecting the balloting unit(s) from the Control Unit. After disconnecting the balloting unit(s) from the control unit the 'Power' should again be put 'ON'. Now the 'Busy' Lamp will go off and the 'Close' button will become functional.

CHAPTER - XXV

ACCOUNT OF VOTES RECORDED

PREPARATION OF ACCOUNT OF VOTES RECORDED

1. After the close of poll, you are required to prepare, under rule 79 of the Conduct of Elections Rules, 2005 an account of votes recorded in the voting machine. Such account shall be prepared by you in Part I of Form XXXVI. This should be prepared in duplicate.
2. As already explained in the preceding chapter, the total number of votes recorded in the voting machine at the close of poll shall be ascertained by pressing the 'Close' button. If necessary, that button can again be pressed to get the required information.
3. You must not forget that the total number of votes recorded in the voting machine must be equal to the total number of voters registered as per column (I) of the Register of Voters (Form XXXIV) minus the number of voters who decided not to vote (as per the remarks column of that register) and also minus the number of voters not allowed by you to vote for violating the secrecy of voting (as per the remarks column of the said Register).
4. The two copies of account of votes recorded in Form XXXVI (**Annexure-XXI**) should be kept by you in a separate cover with the words 'Account of Votes Recorded' superscribed therein.

SUPPLY OF ATTESTED COPIES OF ACCOUNT OF VOTES RECORDED TO POLLING AGENTS

1. Under the said Rule 79, you are also required to furnish to every polling agent present at the close of the poll, a true attested copy of the account of votes recorded as prepared by you in Form XXXVI (**Annexure – XXI**), after obtaining a receipt from those polling agents.

Copies of the accounts should be furnished to every polling agent present even without his asking for it.

2. To enable you to make the required number of copies of the account of votes recorded in Form XXXVI (**Annexure – XXI**) you will be as many copies of the printed form (Form XXXVI) (**Annexure – XXI**) as the number of contesting candidates plus two or three more for the original account. If possible, you should prepare the required number of copies with the help of carbon paper, while filling in the entries in the original account itself, so that all such copies, supplied to polling agents and the original account are identical in every respect.

DECLARATION TO BE MADE AT THE CLOSE OF POLL

In order to ensure that above mentioned requirements of rule 79 regarding furnishing of copies of account of votes recorded by polling agents are fulfilled by you, the Commission has devised a declaration (Part III, **Annexure VII**) which should be made and completed by you at the close of poll.

CHAPTER - XXVI

SEALING OF THE VOTING MACHINE AFTER CLOSE OF POLL

1. After the poll has been closed and the account of votes recorded in the voting machine has been prepared in Form XXXVI (**Annexure – XXI**) and copies thereof furnished to the polling agents present, the voting machine should be sealed and secured for transportation to the counting/collection centre.
2. For sealing and securing the voting machine, the power switch in the control unit should be switched 'OFF' and the balloting unit(s) and the control unit should first be disconnected. The balloting unit(s) and the control unit should be put back in their respective carrying cases.
3. Each carrying case should then be sealed at both ends by passing a thread through the two holes provided for the purpose on both sides of the carrying case and putting thread seal with the Presiding Officer's seal on an address tag showing the particulars of the election, the polling station and the unit contained therein.
4. The particulars on the address tag on the control unit and balloting unit shall be the same as mentioned in para 2(1) of chapter III. The candidates or their polling agents as are present and desirous of putting their seals should also be allowed to do so.
5. The names of the Candidates/Polling Agents who have affixed their seals on the carrying cases of the balloting unit(s) and control unit should also be noted by you in the declaration which you have to make at the close of the poll vide Part IV of **Annexure VII**.

CHAPTER - XXVII

SEALING OF ELECTION PAPERS

SEALING OF ELECTION PAPERS IN PACKETS

1. After the close of poll, all election papers relating to the poll shall be sealed in separate packets as required by rule 81 of the Conduct of Elections Rules, 2005 (See **Annexure-I**).
2. All the packets so sealed, except the packets containing (1) the account of Votes Recorded and Paper Seal (Form XXXVI) (**Annexure – XXI**), (ii) the declarations by the Presiding Officer before the Commencement of poll, during the poll and after close of poll (**Annexure VII**), and (iii) the Presiding Officer's Diary, should be put in four large packets as explained in paragraph 3 below and sent to the Returning Officer.
3. The covers containing
 - (i) the Account of Votes Recorded and Paper Seal Account,
 - (ii) the declarations by the Presiding Officer, and
 - (iii) the Presiding Officer's Diary should be sent separately along with the voting machine to the receiving centre.

You should allow each candidate of his election agent or his polling agent who may be present at the polling station to affix their seals on the envelopes and packets containing the following documents:

- (i) the marked copy of electoral roll;
- (ii) the Register of Voters;
- (iii) Voter's slips;
- (iv) the used tendered ballot papers and the list of tendered votes in Form XXXV (**Annexure – XXII**);
- (v) the unused tendered ballot papers;
- (vi) the list of challenged votes;
- (vii) any other papers that the Returning Officer has directed to be kept in a sealed packet.

PACKING OF 'STATUTORY COVERS' AND 'NON-STATUTORY COVERS' AND ELECTION MATERIALS

1. In order to avoid delay and inconvenience of waiting of the place for depositing sealed voting machine, election papers and all other materials, you are advised to pack the covers and other materials in four separate large packets, as explained below, and hand them over at the place appointed for receipt thereof.

2. The First Packet should contain the sealed covers mentioned below and should be superscribed as "STATUTORY COVERS"
 - (i) the sealed cover containing the marked copy of the electoral roll
 - (ii) the sealed cover containing the Register of Voters;
 - (iii) the sealed cover containing voter's slips;
 - (iv) the sealed cover containing unused tendered ballot papers;
 - (v) the sealed cover containing the used tendered ballot papers and the list I in Form XXXV (**Annexure – XXII**).

3. Even if a statement or record to be put in any cover mentioned above is nil, a slip noting on it that the statement or record is 'Nil' may be put in the cover and the total number of five covers made ready so that no necessity arises for the receiving official at the receiving centre to enquire about the non-production of any of the sealed covers to be received by him.

4. The Second packet should contain the following covers and should be superscribed as 'NON-STATUROTY COVERS':
 - (i) the cover containing the copy or copies of electoral roll (other than the marked copy);
 - (ii) the cover containing the appointment letters of Polling Agents in Form XIV (**Annexure – XV**)
 - (iii) the cover containing the election duty certificate in Form XXIV (**Annexure–XX**)
 - (iv) the sealed cover containing the list of challenged votes in Form XX (**Annexure– XVII**);
 - (v) the cover containing the list of blind and infirm electors in Form XVIII (**Annexure – XIII**) and the declarations of the companions;
 - (vi) the cover containing the declarations obtained from electors as to their age and the list of such electors - (**Annexure-XI**);
 - (vii) cover containing the receipt book and cash, if any, in respect of challenged votes;
 - (ix) cover containing unused and damaged paper seals;

- (x) cover containing unused voter's slips ;
 - (xi) cover containing unused and damaged special tags; and
 - (xii) Cover containing unused and damaged strip seals.
5. The third packet should contain the following items:
- (i) the Handbook for Presiding Officer;
 - (ii) indelible ink set (with stopper having been secured on each phial effectively with molten candle or wax applied thereon to prevent leakage or evaporation);
 - (iii) self-inking pads;
 - (iv) the metal seal of the Presiding Officer;
 - (v) the arrow cross-mark rubber stamp for marking tendered ballot papers;
 - (vi) Cup for setting the indelible ink.
6. All the other items, if any, should be packed into the Fourth packet.
7. Each of the five smaller covers/packets to be included in the first packet marked Statutory Covers should be sealed. The other smaller covers/packets containing various non-statutory papers and items of election materials to be included in the second, third and fourth packets marked 'Non- Statutory Covers' may be prepared separately, but need not be sealed (except the cover containing list of challenged votes in Form XX) (**Annexure – XVII**) in order to save time. All these unsealed covers and the sealed cover, containing list of challenged votes in Form XX (**Annexure – XVII**), should simply be placed in the respective bigger covers along with a check memo signed by the Presiding Officer. These three bigger packets need not be sealed; but may be properly secured by means of pins or thread so that the contents may be checked at the receiving centres. The first packet marked 'Statutory Covers' should, however, be sealed by the Presiding Officer after checking of the contents at the receiving centre.

CHAPTER - XXVIII

PREPARATION OF THE DIARY AND DELIVERY OF VOTING MACHINES AND ELECTION PAPERS AT COLLECTION CENTRES

1. PREPARATION OF THE DIARY

1. You should record the proceedings connected with the taking of the poll in the polling station in the diary to be maintained for the purpose. The proforma of diary is reproduced at **Annexure XIV**.
2. You must go on recording the relevant events as and when they occur. You should mention all important events therein.
3. It has been observed in many cases that the Presiding Officers do not make the entries in the relevant columns of the diary at regular intervals or from time to time as envisaged, and fill in all entries and complete the diary at the end of the poll. This is highly objectionable. It should be noted that any lapse on your part in the proper maintenance of diary at all points of time during the process of poll will be very seriously viewed by the Commission.

TRANSMISSION OF VOTING MACHINE AND ELECTION PAPERS TO THE RETURNING OFFICER

1. After the Voting machine and all election papers have been sealed and secured by you after the close of poll in the manner explained in Chapters XXVI and XXVII, you have to deliver them or cause them to be delivered at such place as the Returning Officer may direct and in accordance with such arrangements as the Returning Officer may make.
2. The voting machine and the election papers should be delivered or caused to be delivered at the collection centre with Zero delay. Any delay in this behalf will be viewed by the Commission with utmost concern and will invite severe disciplinary action against all concerned.

3. You will hand over to the Official-in-charge of the collecting centre the following twelve items of election records and materials and obtain a receipt:-
- (i) the control unit and balloting unit(s) of the voting machine duly sealed in their respective carrying cases;
 - (ii) the cover containing the account of votes recorded and paper seal account;
 - (iii) the cover containing the declarations of the Presiding Officer;
 - (iv) the cover containing the Presiding Officer's diary;
 - (v) the first packet superscribed Statutory Covers (containing 5 covers);
 - (vi) the second packet superscribed Non-Statutory Covers (containing 11 covers);
 - (vii) the third packet containing 7 items of election materials;
 - (viii) material for voting compartment;
 - (ix) lantern, if supplied;
 - (x) waste paper basket;
 - (xi) polythene bag/gunny bag to carry polling materials; and
 - (xii) fourth packet containing all other items, if any. All the above items will be cleared by the receiving official(s) at the collecting centre in your presence and thereafter you will be relieved.

Section 12A Voters Identity Cards:- With a view to preventing personation of electors provision may be made by rules made under this Act, for the production before the Presiding Officer or Polling Officer of a Polling Station by every such elector, of his identity card before the delivery of a ballot paper or ballot papers to him, if under the rules made in that behalf under the Registration of Electors Rules, 1960 made under the Representation of the People Act, 1950, electors of the Legislative Assembly constituency or Constituencies in which the Municipal Corporation is situated, have been supplied with identity cards with or without their respective photographs attached thereto.”;

30. Appointment of Presiding Officers for polling stations:-

- (1) The Returning Officer shall appoint a Presiding Officer for each polling station and such Polling Officer or Officers as he thinks necessary, but he shall not appoint any person who has been employed by or on behalf of, or has been otherwise working for, a candidate in or about the election.

Provided that if a Polling Officer is absent from the polling station, the Presiding Officer may appoint any person who is present at the polling station, other than a person who has been employed by or on behalf of or has been otherwise working for a candidate in or about the election to be the Polling Officer during the absence of the former officer, and inform the Returning Officer, accordingly.

- (2) A Polling Officer shall, if so directed by the Presiding Officer, perform all or any of the functions of a Presiding Officer under this Act or any rules or orders made thereunder.

- (3) If the Presiding Officer, owing to illness or other unavoidable cause is obliged to absent himself from the polling station, his functions shall be performed by such Polling Officer as has been previously authorised by Returning Officer to perform such functions during any such absence.
- (4) References in this Act to the Presiding Officer shall, unless the context otherwise requires, be deemed to include any person performing any function which he is authorised to perform under sub-section (2) or sub-section (3), as the case may be.

31. General duty of the Presiding Officer:-

It shall be the general duty of the Presiding Officer at a polling station to keep order thereat and to see that the poll is fairly taken.

32. Duties of a Polling Officer:-

It shall be the duty of the Polling Officer at a polling station to assist the Presiding Officer for such station in the performance of his functions.

“32A Electoral officers and staff etc. deemed to be on deputation:-

- (1) Any officer or staff employed in connection with the preparation, revision and correction of the electoral rolls for, and the conduct of all elections shall be deemed to be on deputation to the State Election Commission for the period during which they are so employed and such officers and staff shall during that period, be subject to the control, superintendence and discipline of the State Election Commission.
- (2) The District Election Authority, Returning Officer, Assistant Returning Officer, Presiding Officer, Polling Officer and any other officer appointed under this Act, and any police officer designated for the time being by the State Government for the conduct of any elections shall be deemed to be on deputation to the State Election Commission for the period commencing on and from the date of notification calling for such elections and ending with the date of declaration of the results of such elections and such officer shall, during that period, be subject to

the control, superintendence and discipline of the State Election Commission.”;

47. Appointment of Polling Agents:-

A contesting candidate or his election agent may appoint in the prescribed manner such number of agents and relief agents of such candidate at each polling station at the place fixed and when any such appointment is made, notice of the appointment shall be given in the prescribed manner to the Returning Officer.

52. Non-attendance of polling or counting agents:-

When any act or thing is required or authorised by or under this Act to be done in the presence of the polling or counting agents, the non-attendance of any such agent at the time and place appointed or the purpose shall not, if the act or thing is otherwise duly done, invalidate the act or thing done.

59. Fresh poll in the case of destruction, etc., of Ballot Boxes:-

- (1) If at any election,-
 - (a) any ballot box used at a polling station is unlawfully taken out of the custody of the Presiding Officer or the Returning Officer, or is accidentally or intentionally destroyed or lost, or is damaged or tampered with, to such an extent, that the result of the poll at that polling station cannot be ascertained; or
 - (b) any voting machine develops a mechanical failure during the course of the recording of votes; or
 - (c) any such error or irregularity in procedure as is likely to vitiate the poll is committed at a polling station, the Returning Officer shall forthwith report the matter to the State Election Commission.
- (2) Thereupon, the State Election Commission shall, after taking all material circumstances into account; either-
 - (a) declare the poll at that polling station to be void, appoint a day, and fix the hours, for taking a fresh poll at that polling station and notify the day so appointed and the hours so fixed in such

manner as it may deem fit, or

(b) if satisfied that the result of a fresh poll at that polling station will not, in any way, affect the result of the election or that the mechanical failure of the voting machine or the error or irregularity in procedure is not material, issue such directions to the Returning Officer as it may deem proper for the further conduct and completion of the election.

(3) The provision of this Act and of any rules or orders made thereunder shall apply to every such fresh poll as they apply to the original poll.

59A. Adjournment of poll or countermanding of election on the ground of booth capturing:-

(1) If at any election,-

(a) booth capturing has taken place at a polling station or in such number of polling stations as is likely to affect the result of such election or that the result of the poll at that polling station cannot be ascertained; or

(b) booth capturing takes place in any place for counting of votes in such a manner that the result of the counting at that place cannot be ascertained, the Returning Officer shall forthwith report the matter to the State Election Commission.

(2) The State Election Commission shall on the receipt of a report from the Returning Officer under sub-section (1) and after taking all material circumstances into account, either,-

(a) declare that the poll at that polling station be void, appoint a day, and fix the hours, for taking fresh poll at that polling station and notify the date so appointed and hours so fixed in such manner as it may deem fit, or-

(b) if satisfied that in view of the large number of polling stations involved in booth capturing the result of the election is likely to be affected or that booth capturing had affected counting of votes in such manner as to affect result of the election,

countermand the election in that constituency.

Explanation:- In this section “ booth capturing” shall have the same meaning as in section 607C.”;

602. Maintenance of secrecy of voting:-

- (d) give it to the presiding officer who shall place it in a cover specially kept for the purpose, and
- (e) leave the polling station.

(4) If owing to blindness or physical infirmities, such elector is unable to record his vote without assistance the presiding officer shall permit him to take with him a companion, subject to the same conditions and after following the same procedure as laid down in rule 74 for recording the vote in accordance with his wishes.

77. Presiding Officer’s entry in the voting compartment during poll

– (1) The Presiding Officer may whenever he considers it necessary to do so, enter the voting compartment during poll and take such steps as may be necessary to ensure that the balloting unit is not tampered or interfered with in any way.

(2) If the Presiding Officer has reason to suspect that an elector who has entered the voting compartment is tampering or otherwise interfering with the balloting unit or has remained inside the voting compartment for unduly long period, he shall enter the voting

compartment and take such steps as may be necessary to ensure the smooth and orderly progress of the poll.

(3) Whenever the Presiding Officer enters the voting compartment under this rule, he shall permit the polling agents present to accompany him if they so desire.

78. Closing of Poll – (1) The Presiding Officer shall close a polling station at the hour fixed in that behalf under section 57 of the Act, and shall not thereafter admit any elector into the polling station.

Provided that all electors present at the polling station before it is closed shall be allowed to cast their votes.

(2) If any question arises whether an elector was present at the polling station before it was closed it shall be decided by the Presiding Officer and his decision shall be final.

79. Account of votes recorded - (1) The Presiding Officer shall at the close of the poll prepare an account of votes recorded in Form – XXXVI and enclose it in a separate cover with the words “Account of Votes Recorded” superscribed thereon.

(2) The Presiding Officer shall furnish to every polling agent present at the close of the poll, a true copy of the entries made in Form XXXVI after obtaining a receipt from the said polling agent therefor and shall attest it as a true copy.

80. Sealing of voting machine after poll – (1) As soon as practicable after the closing of the poll, the Presiding Officer shall close the control unit to ensure that no further votes can be recorded and shall detach the balloting unit from control unit.

(2) The control unit and the balloting unit shall thereafter be sealed, and secured separately in such manner as the State Election Commission may direct and the seal used for securing them shall be so affixed that it will not possible to open the units without breaking the seals.

(3) The polling agents present at the polling station, who desires to affix their seals, shall also be permitted to do so.

81. Sealing of other packets – (1) The Presiding Officer shall then make into separate packets, -

- (a) the marked copy of the electoral roll;
- (b) the register of voters in Form XXXIV;
- (c) the cover containing the tendered ballot papers and the list in Form XXXV;
- (d) the list of challenged votes; and
- (e) any other papers directed by the State Election Commission to be kept in a sealed packet.

(2) Each packet shall be sealed with the seal of the Presiding Officer and with the seal either of the candidate or of his election agent or of his polling agent who may be present at the polling station and may desire to affix his seal thereon.

82. Transmission of voting machines, etc., to the Returning Officer– (1) The Presiding Officer shall then deliver or cause to be delivered to the Returning Officer at such place as the Returning Officer may direct,-

- (a) the voting machine;
- (b) the account of votes recorded in Form XXXVI;
- (c) the sealed packets referred to in rule 81 and
- (d) all other papers used at the poll.

(2) The Returning Officer shall make adequate arrangements for the safe transport of the voting machine, packets and other papers for their safe custody until the commencement of the counting of votes.

83. Procedure on adjournment of poll – (1) If the poll at any polling stations is adjourned under sub-section (1) of section 58 of the Act, the provisions of rules 79 to 82, shall, as far as practicable, apply as if the poll was closed at the hour fixed in that behalf under section 57 of the Act.

(2) When an adjourned poll is recommended under sub-section (2) of section 58 of the Act, the electors who have already voted at the poll so adjourned shall not be allowed to vote again.

(3) The Returning Officer shall provide the Presiding Officer of the polling station at which such adjourned poll is held, with sealed packet containing the marked copy of the electoral roll, register of voters in Form XXXIV and a new voting machine.

(4) The Presiding Officer shall open the sealed packet in the presence of the polling agents present and use the marked copy of the electoral roll for making the names of the electors who are allowed to vote at the adjourned poll.

(5) The provisions of rules 61 to 82 shall apply in relation to the conduct of an adjourned poll before it was so adjourned.

84. Closing of voting machines in case of booth capturing - Where the Presiding Officer is of opinion that booth capturing is taking place at a polling station or at a place fixed for the poll, he shall immediately close the control unit of voting machine to ensure that no further votes can be recorded and shall detach the balloting unit from the control unit.

STATE ELECTION COMMISSION
3rd Floor, Buddha Bhavan, M G Road, Secunderabad – 500 003.

C I R C U L A R No.14

No.528/SEC-F1/2011

Dated: 01-07-2011

Sub:- Conduct of 4th ordinary elections to Urban Local Bodies - Tracking the presence of polling agents at the polling stations on the poll day and mandatory conduct of Mock Poll and certification therein – Certain instructions issued – Regarding.

>><<

Highest importance has to be given to the integrity and transparency in the election process. Instructions were already issued about the conduct of mock poll in the Hand book of Returning Officers / Election Officers / Presiding Officers. The Commission considers that the presence of the agents appointed by the contesting candidates during their poll augurs well for transparency. On the other hand, presence of the agents of only one of the candidates and in the absence of other agents may lead to complaints.

Therefore, the Commission issues the following instructions:-

1. Candidates may be advised by the RO / EO to ensure that the agents reach the polling stations well in advance before the commencement of poll so that the pre-poll formalities such as issue of entry pass to the agents, conduct of mock poll etc., are done in time.
2. The Presiding Officers shall conduct mock poll, following the existing instructions, in the presence of the polling agents and prepare and sign the mock poll certificate in the prescribed format as in **Annexure**. Mock poll shall be conducted at least 30 minutes before the commencement of actual poll.
3. The Presiding Officer shall mention the names of the agents and the candidates they represent and obtain their signatures for the purpose of record.
4. The RO / EO through the Zonal Officers and using the communication link with the polling station/ mobile teams shall track the conduct or otherwise of mock poll and ascertain the mock poll status within 30 minutes. Non-confirmation of mock poll could be indicative of some problem on the part of Presiding Officer or the EVM and hence the Returning Officer / Election Officer shall make immediate intervention to sort out the problem.

5. The polling stations not having the presence of rival candidates of recognized parties and where the mock poll had to be conducted in the absence of agents shall merit focused attention of the election machinery. Interventions such as deployment of reserve micro-observers, deployment of video cameras, frequent visits by Zonal Officers and other senior officers could be made.
6. After the completion of poll on the basis of mock poll certifications received from the presiding officers, the Returning Officer / Election Officer shall prepare a list of such polling stations where the mock poll had to be conducted in the absence of agents or where at the time of mock poll the agents of more than one rival candidates of recognized parties were not present and special attention shall be paid to the documents received from such polling stations for proper scrutiny. The observers shall also pay their attention to this aspect.

This may be brought to the notice of all concerned.
